

Is huissiers-frejus.com legit? TrustSniffer's high-trust assessment: 100/100

huissiers-frejus.com

Verdict

100

OUT OF 100

HIGH TRUST

huissiers-frejus.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Website for Kaliact Huissiers in Fréjus / Saint-Raphaël describing services (constat, signification, recouvrement), auction pages and secure payment; appears to be a standard local legal-services WordPress site.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the online presence of Kaliact Huissiers in Fréjus and Saint-Raphaël, presenting a local commissaires de justice practice that serves individuals and businesses through constat reports, act signification, debt recovery, auction services, and secure payment facilities.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent local legal-services purpose, and the reviewed content contains no phishing, impersonation, malicious-detection, or conflicting-identity indicators. Its apparent legitimacy is supported by long-term domain continuity and consistent historical presence, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies “Kaliact Huissiers Fréjus” and describes constat, signification, and debt-recovery services without detected fraud indicators.
- The domain was registered in 2013 and is approximately 12.65 years old.
- Archive records were first seen on 2013-12-30 and last seen on 2026-05-20, with 14 years tracked.

Regulatory Verification Notes

The site presents itself as a professional commissaires de justice practice and describes signification as a regulated activity, but the reviewed content does not independently establish the operating legal entity or provide a license or registration number. This is a verification and disclosure gap rather than evidence of deception. Available external reputation checks found no adverse malicious or suspicious result, and no relevant third-party broker warning was identified; those signals provide context only and are not a legal or licensing determination.

EVIDENCE

- The homepage describes the business as a commissaires de justice practice serving private and professional clients.
- The site menu includes Contact, Paiement Sécurisé, and Vente aux Encheres pages, but the reviewed content does not display a license or registration number.
- The site is served from AS16276, operated by OVH - OVH SAS, France.
- Transport encryption uses a DV certificate issued by YE1, valid to 2026-11-07.

What to Verify Next

Before credential or payment interactions, independently confirm the practice’s legal identity and professional authorization through the relevant French official registry. Contact details and payment instructions should be confirmed through an independent route, and auction or payment terms should be reviewed for the applicable transaction protections and dispute process.

EVIDENCE

- The homepage makes professional and regulated-service claims that warrant confirmation against an official professional register.
- The Contact and Paiement Sécurisé pages provide the site’s stated interaction and payment pathways.
- The Vente aux Encheres page provides the relevant basis for reviewing auction-specific terms before a transaction.

Summary Verdict

The overall posture is high trust and low risk, and the available evidence is consistent with an established, apparently legitimate local legal-services website. This classification supports ordinary website use, but it does not independently prove the identity of the real-world operator.

Infrastructure Integrity

The site uses CDN/WAF protection, with observed addresses associated with OVH infrastructure and no origin candidate exposed in the analysis. This reduces direct origin exposure and is a positive infrastructure control, while remaining a mitigating technical signal rather than proof of organizational legitimacy.

Closing Assessment

Routine browsing is proportionate; independent identity, transaction-protection, and payment checks should be completed before submitting credentials or making a payment.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about huissiers-frejus.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
