Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2008.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website is a Spanish-language corporate platform for a human-capital consulting and talent-management firm, presenting organizational transformation, executive search, compensation studies, BPO services, events, publications, recruitment opportunities, testimonials, and professional contact options.

Scam/Impersonation Risk

No contradictions were observed across the supplied evidence: there are no confirmed blacklist, phishing, impersonation, or conflicting-identity findings. The homepage presents a coherent professional-services model rather than investment returns, user deposits, or deceptive financial propositions. Historical continuity and stable site behavior further support an established operating presence; one isolated external detection is insufficient to alter that conclusion.

- Domain registration records show registration in 2006, approximately 20 years ago.
- Historical records contain 217 snapshots spanning 2008–2026, covering 19 tracked years.
- The homepage identifies the business as a human-capital consultancy with named service areas, resources, events, and contact options.
- Interactive testing recorded no login form, hidden sensitive form, wallet connection, clipboard manipulation, or suspicious script activity.

Regulatory Verification Notes

The site's apparent business model is professional consulting and talent management, including executive search, organizational transformation, compensation advisory, BPO, events, and labor-market resources. No specific financial-service licensing claim is presented in the supplied evidence; this is a limited disclosure point relevant only where a particular engagement would legally require authorization. The available third-party context does not identify a broker match or provide a contrary regulatory finding. Registration privacy is an administrative detail rather than an identity contradiction.

- The homepage and solutions pages describe consulting and human-capital services rather than regulated investment products.
- The privacy and contact areas provide standard corporate-site functions, while the supplied content does not show a license number or named regulatory authority.
- The domain is registered through ENOM, INC.

- The site is hosted on AS47583, Hostinger International Limited; its TLS certificate is issued by YE2 at DV validation level and is valid to 2026-09-16.

What to Verify Next

For any engagement subject to sector-specific licensing or procurement requirements, the applicable corporate or professional registration should be confirmed through the relevant official registry. Commercial counterparties should also confirm the contracting entity, service scope, and payment instructions through the site’s published corporate channels and standard procurement documentation.

- The homepage presents the stated service portfolio and business purpose.
- The contact area provides the basis for confirming the contracting route and responsible business contact.
- The privacy page provides an additional corporate-documentation reference point.

Summary Verdict

The website presents as a legitimate, established, and trustworthy corporate services platform. Its coherent business model, sustained historical presence, clean behavioral profile, and absence of contradiction support normal interaction and standard use.

Infrastructure Integrity

The site resolves directly to four likely origin addresses without a detected CDN or WAF edge layer. It is hosted by Hostinger International Limited on AS47583 in Ukraine, and transport encryption is provided through a valid DV certificate issued by YE2. This infrastructure is consistent with a functioning hosted corporate website and should be treated as a supporting mitigation, not independent proof of legitimacy.

Closing Assessment

Normal business engagement, account access where offered, and standard site use are appropriate, with ordinary contractual and procurement checks applied to any material commercial commitment.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of humancapital-hc.com.

- The request stayed on humancapital-hc.com. It was not redirected to another domain. CLEAR

- Registration is published under ENOM, INC.. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-14. NOTED
- The earliest public archive of this site is from 2008-12-17. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about humancapital-hc.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
