

Is hvacrheritage.ca legit? TrustSniffer's high-trust assessment: 100/100

hvacrheritage.ca

Verdict

100

OUT OF 100

HIGH TRUST

hvacrheritage.ca appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Official site for the HVACR Heritage Centre Canada: museum-style informational content about heating, ventilation, air conditioning and refrigeration history, with exhibits, collections, news, contact details and charity registration information.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What hvacrheritage.ca served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

What this website is

HVACR Heritage Centre Canada is an informational, museum-style website presenting the history of heating, ventilation, air conditioning, and refrigeration through exhibits, collections, educational material, news, and contact information; its apparent purpose is to support a charitable heritage-centre and educational programme funded through sponsorships, donations, volunteers, and potentially grants.

Scam/Impersonation Risk

No scam, phishing, impersonation, or identity-contradiction signals were observed. The homepage presents coherent museum and heritage content, including historical HVACR artefacts and structured sections covering exhibitions, collections, and technology, while the site has no login form, sensitive form, wallet connection, hidden form, or suspicious browser behaviour. Available external checks also showed no malicious or suspicious detections and no reported abuse. The site is apparently legitimate and evidence-consistent with an established organisation, although the real-world operator identity is not independently verified.

EVIDENCE

- Domain registration: 2017-02-23; age 9.49 years.
- Archive record first seen 2017-10-07 and last seen 2026-07-13, spanning 10 years tracked.
- The homepage is classified as informational, museum, and charity content, with no detected phishing or brand-impersonation indicators.
- Interactive testing recorded 0 wallet-connect runs, 0 hidden forms, 0 suspicious inline scripts, and 0 clipboard-write detections.

Regulatory Verification Notes

The About and Contacts content identifies a national charitable heritage-centre model and publishes contact details together with a CRA charity registration reference. This supports the site's stated non-profit purpose, but the available evidence does not independently verify the operator or provide an external regulatory determination. The homepage's absence of a meta description and structured data is a minor presentation gap, not evidence of deception. The domain is registered through NameSilo Technologies Corp.; its transport encryption is provided by a valid, known-issuer DV certificate. No separate financial-services licensing claim is relevant to the museum and educational activities presented.

EVIDENCE

- The Contacts content publishes contact details and a CRA charity number.
- The homepage contains no meta description and no detected structured data.
- Registered through NameSilo Technologies Corp.; registration expires 2028-02-23.
- Hosted on AS8560 (IONOS-AS - IONOS SE, DE); TLS certificate issued by YR1 (DV), valid to 2026-10-08.

What to Verify Next

Before any credential or payment interaction, independently match the published CRA charity reference and organisation details against the relevant Canadian registry. For donations or other payments, confirm the recipient name, applicable donation or refund terms, and payment-protection arrangements through an independent channel rather than relying solely on information presented on the website. Contact channels should likewise be confirmed through an independent, offline route where the transaction is material.

EVIDENCE

- The site provides a charity registration reference suitable for independent registry matching.
- The stated business model is charitable and donation-supported rather than a financial-investment service.
- The site contains no sensitive forms or payment-processing form in the captured content.

Summary Verdict

The overall posture is **high trust and low risk**, with strong convergence between the site's coherent charitable purpose, stable technical behaviour, established registration continuity, and absence of contradictory threat

signals. Available evidence is consistent with an established, apparently legitimate website, while independent operator-identity verification remains incomplete.

Infrastructure Integrity

The website is protected by CDN/WAF infrastructure, and the observed address was an edge address rather than an observable origin candidate. This reduces direct origin exposure and is a mitigating infrastructure characteristic, but it is not proof of organisational legitimacy.

EVIDENCE

- CDN/WAF protection was observed with 1 edge IP and 0 likely origin candidates.
- The observed edge address was 50.21.182.118.

Closing Assessment

Ordinary use is proportionate to the assessed posture, subject to independent operator, policy, and payment-protection checks before credentials or funds are provided.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of hvacrheritage.ca.

- The request stayed on hvacrheritage.ca. It was not redirected to another domain. CLEAR
- Registration is published under NameSilo Technologies Corp.. CLEAR
- DNS for this domain is served by azure-dns.com, across 4 name servers. NOTED
- The registration is paid up to 2028-02-23. CLEAR
- The earliest public archive of this site is from 2017-10-07. CLEAR
- It is hosted on IONOS-AS, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about hvacrheritage.ca at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
