Full analysis

Overview

This website presents itself as the official HVPM College of Engineering and Technology portal, providing institutional information, academic departments, admissions and fee details, accreditation materials, governance documents, research and placement resources, and student-support information. Its apparent purpose is to serve as an educational institution's public information and admissions channel rather than a direct commercial or financial service.

Scam/Impersonation Risk

The site content is internally consistent with an educational institution and the reviewed pages show no login form, sensitive-input form, wallet functionality, hidden form, or other on-page phishing mechanism. However, this benign presentation is outweighed by confirmed adverse external reputation signals: the domain is blacklisted by multiple external sources, and three malicious detections were recorded. These are material contradictions for any sensitive interaction, even though no distinct conflicting legal identities or direct brand-impersonation indicators were identified in the page content. The site's apparent institutional identity therefore remains unverified rather than proven.

EVIDENCE

- The homepage identifies HVPM COET as a college and lists academic, admissions, governance, and student-support content; page analysis found no red flags.
- External reputation assessment recorded 3 malicious detections and a confirmed blacklist status.
- Domain registration records show creation on 2014-06-02 and an age of 12.22 years.
- Historical records identify website activity from 2014-09-25 through 2026-05-13, covering 13 years of tracked history; archival coverage is sparse.

Regulatory Verification Notes

The legal and institutional content is substantial: the site states permanent affiliation with Sant Gadgebaba Amravati University and approval by AICTE, DTE, and the Maharashtra Government. It also provides sections for accreditation and ranking status, recognition and approval, annual accounting reports, governing bodies, grievance procedures, and mandatory self-disclosure. These materials support an apparent institutional purpose, but the real-world operator is not independently verified by the available evidence, and no separate licensing or registration number is established in the supplied analysis. The claims should therefore be treated as on-site assertions requiring confirmation through the relevant academic and government authorities. The site's modest page-authority profile is contextual only and does not resolve the external reputation contradiction.

EVIDENCE

- The homepage and "About HEI" materials state affiliation with Sant Gadgebaba Amravati University and approvals by AICTE, DTE, and the Maharashtra Government.
- Accreditation, recognition, annual accounting, governing-body, grievance, and self-disclosure sections are listed within the institutional navigation.
- Hosting resolves to AS133643, EWEBGURU-AS – EWEBGURU, IN.
- The site uses a DV TLS certificate issued by YR1, valid until 2026-10-03T08:53:38+00:00.

What to Verify Next

Before admissions, fee payment, document submission, or account creation, an institution or payment counterparty should independently confirm the college's affiliation and stated approvals through official university and government registries. The admissions and fee pages should be checked for payment instructions, refund terms, and the exact legal recipient of funds; those details should match information obtained through an independently sourced institutional contact channel. Any requested academic or identity documents should be submitted only after that independent confirmation.

EVIDENCE

- The admissions section provides an admission process, guidelines, prospectus, fee structure, and fee-refund policy for review.
- The "About HEI" section identifies accreditation, recognition, approval, and self-disclosure areas suitable for independent cross-checking.
- The contact page and institutional directory provide the site's stated contact routes for comparison with independently obtained contact information.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site appears institutionally structured and presents credible-looking educational content, but the confirmed external blacklist and malicious detections prevent the available evidence from supporting routine trust or verified identity.

Infrastructure Integrity

The website resolves directly to a single apparent origin endpoint and is not shown behind a CDN or WAF. This configuration does not itself establish maliciousness, but it provides limited edge-level mitigation compared with a site using mainstream protective infrastructure.

Closing Assessment

Public informational review may continue, but admissions, payments, credential submission, and transfer of personal documents should remain deferred until the institution and transaction details have been independently confirmed through authoritative channels.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about hvpmcoet.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
