

Is icoi.net legit? TrustSniffer's high-trust assessment: 90/100

icoi.net

Verdict

90

OUT OF 100

HIGH TRUST

icoi.net appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 75%.

What this site appears to be

Official homepage for the Islamic Center of Irvine. Provides contact info, address, donation CTA, program and event listings, volunteer and membership info, and nonprofit tax ID details.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is the official online presence presented for the Islamic Center of Irvine, offering visitors information about its religious, educational, community, volunteer, membership, event, facility-rental, and donation activities as part of an apparent community non-profit operating model.

Scam/Impersonation Risk

No contradictions were observed across the available site, historical, and external-reputation evidence. The homepage presents a coherent organizational profile with contact information, an Irvine address, program and event listings, volunteer and membership pathways, financial information, and nonprofit tax-ID details; the content analysis identified no phishing, impersonation, or other fraud indicators. External checks recorded no malicious result, no malicious search-warning result, and one unconfirmed suspicious classification; that isolated signal is not corroborated by the broader evidence, including zero abuse reports and no detected brand-impersonation pattern.

EVIDENCE

- The homepage identifies the Islamic Center of Irvine and links to About Us, Meet Our Team, Board of Directors, Contact Us, Financials, Membership, Events, and Donate pages.
- External reputation checks recorded 0 malicious results, 1 suspicious result, and 0 abuse reports; no confirmed phishing or malicious-site result was recorded.
- The domain was registered in 2004 and is approximately 22.39 years old; its archive contains 387 snapshots spanning 2001–2026, covering 26 years.
- The homepage links to Instagram, Facebook, Twitter, and YouTube profiles, with no brand-impersonation finding recorded.

Regulatory Verification Notes

The site is consistent with a community non-profit rather than a financial-services provider, and its stated funding model is based on donations, memberships, facility rentals, events, and community services. The homepage and organizational navigation include nonprofit tax-ID information and financials, but no financial-services license or license number is claimed; this is a disclosure point to reconcile according to the specific activity being undertaken, not an indication of deceptive conduct. The real-world operator identity remains apparently connected to the organization but is not independently verified. The registration record uses Perfect Privacy, LLC, while the registrar is Register.com – Network Solutions, LLC; this is an administrative registration detail rather than an identity contradiction. The available evidence is therefore consistent with an established, apparently legitimate site, while not proving the operator's identity or regulatory status.

EVIDENCE

- The homepage describes Islamic Center of Irvine programs and services and provides nonprofit tax-ID details.
- The site navigation includes About Us, Board of Directors, Financials, Contact Us, and Membership pages.
- The domain registration record lists Register.com – Network Solutions, LLC as registrar and Perfect Privacy, LLC as the registrant service.
- The site is served from AS13335 (Cloudflare); its TLS certificate is issued by WE1 at DV validation level and is valid to 2026-11-09T02:39:41+00:00.

What to Verify Next

Before credential or payment interactions, an independent confirmation should reconcile the organization named on the relevant transaction page with the nonprofit records and financial information presented on the site. The donation recipient, payment processor, refund or cancellation terms, and any facility-rental or event-payment conditions should be checked through the organization's independently confirmed contact channels. Where a regulated activity is contemplated, the applicable registry should be checked for the relevant entity and activity rather than relying solely on website presentation.

EVIDENCE

- The site provides dedicated About Us, Board of Directors, Financials, and Contact Us routes suitable for identity and governance reconciliation.
- The homepage offers Donate, Become a Member, event, and facility-rental pathways, making recipient and transaction-term confirmation relevant before payment.
- The site publishes telephone and postal contact details that can support independent confirmation through an offline or separately sourced channel.

Summary Verdict

The overall posture is high trust and low risk, with the available evidence converging on an established, apparently legitimate community organization. No scam, phishing, impersonation, or identity-conflict indicators were observed, although the operator connection is not independently verified.

Infrastructure Integrity

Cloudflare CDN and WAF protection provide a mitigating layer against direct exposure and routine abuse, and all observed addresses were CDN edge addresses with no origin candidates identified in the analysis. The infrastructure resolved through Cloudflare's US network and presents a valid mainstream TLS configuration; these controls support technical integrity but are not, by themselves, proof of organizational legitimacy.

Closing Assessment

Independent confirmation of merchant identity, applicable return or refund terms, and payment protections should precede credential or payment interactions.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	40%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of icoi.net.

- The request stayed on icoi.net. It was not redirected to another domain. CLEAR
- Registration is published under Register.com - Network Solutions, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 4 name servers. NOTED

- The registration is paid up to 2031-04-07. CLEAR
- The earliest public archive of this site is from 2001-04-07. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about icoi.net at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
