

Is ilgiorno.it legit? TrustSniffer's high-trust assessment: 90/100

ilgiorno.it

Verdict

90

OUT OF 100

HIGH TRUST

ilgiorno.it appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Italian regional newspaper article hub (Il Giorno) containing multiple news items on Lombardy: local incidents, weather, culture, sports and event listings; subscription promotion visible.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What ilgiorno.it served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is an Italian regional newspaper serving Lombardy, presenting editorial coverage of local incidents, weather, culture, sports, and events through the Il Giorno publication, with revenue apparently derived from advertising, sponsored content, and online subscriptions.

Scam/Impersonation Risk

No phishing, impersonation, or conflicting legal-identity signals were observed. The homepage presents a coherent editorial publication rather than a deceptive financial, investment, or credential-harvesting service. Automated browser observations recorded one suspicious inline script and some non-whitelisted network activity, but these were not accompanied by hidden forms, password submissions to external destinations, wallet activity, cloaking, clipboard manipulation, or other abuse patterns; in context, they do not outweigh the clean page-level presentation and overall reputation evidence.

EVIDENCE

- The homepage identifies the service as “Il Giorno” and contains substantial Lombardy-focused news coverage across crime, weather, culture, sports, and events.
- Browser observations recorded 1 suspicious inline script, 4 console errors, 115 external XHR requests, and 38 external POST requests; the same observations recorded 0 hidden forms, 0 external password forms, 0 wallet-provider detections, 0 wallet-drainer runs, and no cloaking.
- The domain was registered on 2000-08-10 and is approximately 26.04 years old.

Regulatory Verification Notes

Available evidence is consistent with an established, apparently legitimate news publisher, but the real-world operator identity is not independently verified. No financial or other regulated-service license is claimed or verified; for this editorial business model, that is a disclosure and applicability point rather than evidence of deception. The registration record associates the domain with Natali Nicola and MonrifNet Srl through Register S.p.a., but that association alone does not independently establish the operating entity. External reputation checks were clean, and the site has a substantial global traffic presence.

EVIDENCE

- The domain registration record lists Register S.p.a. as registrar and Natali Nicola / MonrifNet Srl as the recorded registrant association.
- The site is served from AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The transport certificate was issued by WE1 with DV validation and is valid to 2026-11-09T01:36:03+00:00.
- The site is ranked 17117 globally and is within the top 1 million websites; evaluated reputation sources reported 0 malicious and 0 suspicious detections.

What to Verify Next

Before credential or payment interactions, independently confirm that the subscription checkout is operated by the same publisher associated with the publication. Review the subscription terms, renewal conditions, cancellation process, refund provisions, and applicable payment protections. Contact channels should be confirmed through an independently sourced route rather than relying solely on details presented during checkout.

EVIDENCE

- The homepage advertises an online subscription with a promotional first month priced at €1.
- The site presents “Accedi” and subscription-related calls to action, while the captured homepage contained no sensitive form submission.
- The available business description identifies subscriptions, advertising, and possibly sponsored content as the commercial model.

Summary Verdict

The overall posture is **high trust and low risk**, with the available evidence consistent with an established, apparently legitimate website. No contradiction-based scam or impersonation indicators were observed, although the operating identity remains independently unverified.

Infrastructure Integrity

Cloudflare CDN and WAF protection provide a meaningful defensive layer and reduce direct exposure of the hosting environment. All observed addresses were CDN edge addresses, and no origin candidates were identified; this is a mitigating infrastructure characteristic, not proof of legitimacy.

EVIDENCE

- Cloudflare protected the site through CDN/WAF infrastructure.
- All 6 observed IP addresses were CDN edge addresses; likely origin IP count was 0.
- Observed edge addresses included 104.26.4.192, 104.26.5.192, 172.67.73.5, 2606:4700:20::681a:4c0, and additional Cloudflare-served addresses.

Closing Assessment

Normal browsing and ordinary use are proportionate to the assessed posture; before submitting credentials or making subscription payments, standard independent merchant-identity, cancellation/refund, and payment-protection checks should be completed.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ilgiorno.it.

- The request stayed on ilgiorno.it. It was not redirected to another domain. CLEAR
- Registration is published under Register S.p.a.. CLEAR
- DNS for this domain is served by cloudflare.com. NOTED
- The registration is paid up to 2026-08-10. NOTED
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [ilgiorno.it](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
