

Is ilovetocomehome.com legit? TrustSniffer's high-trust assessment: 100/100

ilovetocomehome.com

Verdict

100

OUT OF 100

HIGH TRUST

ilovetocomehome.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Chaparral Pavers is a local landscape contractor advertising design, build, and furnish services for outdoor living spaces. The page includes service navigation, a testimonial, license number, phone contact, and links to Yelp/YouTube presence.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://www.ilovetocomehome.com/>

What ilovetocomehome.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

This website presents Chaparral Pavers, a local landscape contractor focused on designing, building, and furnishing residential outdoor living spaces, including patios and other landscaped areas. Its apparent business model is to generate revenue through direct design and construction services, supported by a portfolio, customer testimonial, telephone contact, and references to Yelp and YouTube.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other identity contradiction was observed. The homepage is consistent with a conventional local-service business: it describes specific landscaping services, provides a telephone number, identifies a customer testimonial associated with Arroyo Grande, California, and displays a contractor license number. A third-party abuse signal concerns a shared Squarespace provider IP rather than the website's identity; the attribution therefore does not establish malicious activity by Chaparral Pavers. The available evidence supports an apparently legitimate site, although the real-world operator identity remains likely rather than independently verified.

EVIDENCE

- The homepage identifies Chaparral Pavers as a landscape contractor offering “Design, Build, and Furnish” services and contains no detected phishing or impersonation indicators.
- The homepage displays “Landscape Contractor License #816593,” a telephone contact, and a customer testimonial attributed to Kathy N. in Arroyo Grande, California.
- Thirty-four abuse reports concern IP address 198.185.159.144, attributed to Squarespace, Inc. shared infrastructure rather than specifically to the website.

Regulatory Verification Notes

The site provides a concrete contractor-license reference and business contact information, which is materially better than an anonymous commercial presentation. However, the supplied evidence does not independently verify the license or establish the operator’s legal identity, so the site should be described as apparently legitimate rather than identity-proven. No separate regulated-financial-service claim is evident, and no broker-dataset match was found. The displayed business model is ordinary contracting rather than a financial product, while licensing and business-identity confirmation remain appropriate transparency checks before a formal engagement.

EVIDENCE

- The homepage displays contractor license number 816593 and identifies the business as a landscape contractor.
- The domain was registered on 2010-06-12 and is approximately 16.2 years old; registration is through GoDaddy.com, LLC.
- Archive records contain 78 snapshots spanning 2011–2025, covering 15 tracked years.
- The site is served from AS53831, SQUARESPACE - Squarespace, Inc., US; its TLS certificate is issued by YR2 at DV validation level and is valid through 2026-11-11.

What to Verify Next

Before a contract or payment interaction, the prospective customer should independently confirm license number 816593 with the relevant contractor-licensing authority, match the legal business name and service address shown in the contract to an independent business record, and obtain written scope, warranty, insurance, cancellation, and payment terms. Contact details should also be corroborated through an independent business or social channel rather than relying solely on the website.

EVIDENCE

- The homepage supplies the license reference, telephone number, and business-service description needed for independent validation.
- The navigation provides “Our Philosophy,” “Services,” “Design,” “Portfolio,” and “Contact Us” pages that can be compared with contractual representations.
- The homepage links to Yelp and YouTube, providing independent channels for checking business continuity and customer-facing activity.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated local landscaping purpose. The site does not present observed scam or impersonation contradictions, but the connection between the website and a legally verified real-world operator remains unconfirmed.

Infrastructure Integrity

The site is hosted by SQUARESPACE - Squarespace, Inc. in the United States on AS53831. The hosting environment is assessed as trusted protective infrastructure; network resolution showed four likely origin IP candidates and no separately observed CDN edge IPs, which is a technical posture observation rather than proof of business legitimacy.

Closing Assessment

Ordinary browsing and initial business enquiries are proportionate, while independent confirmation of the contractor’s credentials, contracting entity, and payment protections should precede any substantial financial commitment.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 34 reports on hosting IP 198.185.159.144 (Squarespace, Inc., Content Delivery Network), 30% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ilovetocomehome.com.

- The request stayed on ilovetocomehome.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by squarespacedns.com, across 2 name servers. NOTED
- The registration is paid up to 2030-06-12. CLEAR
- The earliest public archive of this site is from 2011-02-02. CLEAR
- It is hosted on SQUARESPACE, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ilovetocomehome.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
