

Is imaginachine.com a scam? TrustSniffer's high-risk assessment: 0/100

imaginachine.com

Verdict

0

OUT OF 100

CRITICAL RISK

imaginachine.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Imaginachine is a consultancy/creative studio focused on systems thinking, information architecture, visual design, documentation, and AI-driven world-building; provides contact email and links to related projects.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	11 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	0 reports AbuseIPDB; shared hosting inflates this count	NOTED
Domain age	9.6 years old Registered history	CLEAR
Web archive	Archived since 2020 Public history exists	CLEAR
Certificate	Encrypted connection Issued by YE1	NOTED

The page as captured

<https://imaginachine.com/>

What imaginachine.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Imaginachine is a consultancy and creative-studio website presenting systems thinking, information architecture, visual design, documentation strategy, and AI-assisted knowledge and world-building services, apparently intended to attract consulting engagements, project fees, and creative commissions.

Scam/Impersonation Risk

The site's homepage presents a coherent consultancy and portfolio model, and no brand impersonation, phishing form, or identity contradiction was observed in the supplied page analysis. However, this benign presentation is outweighed by confirmed external threat signals: the domain is listed by external reputation sources, and 11 evaluated detections classified it as malicious, including detections associated with Kaspersky and Sophos. The available evidence therefore supports a clearly cautionary posture for sensitive interaction, despite the absence of an on-page impersonation indicator.

EVIDENCE

- Homepage analysis identifies a consultancy/portfolio site with no login form, hidden form, password form, wallet connection, or sensitive data-collection form.
- External reputation telemetry records 11 malicious detections, including Kaspersky and Sophos.
- External reputation telemetry records a confirmed blacklist condition; Google Safe Browsing was not malicious.

Regulatory Verification Notes

The website describes professional consulting and creative services rather than presenting a regulated financial offering. No license, registration number, or licensing authority is claimed in the supplied site content, leaving the legal operating status and the connection between the site and a real-world operator unverified. This is a regulatory and disclosure matter requiring independent confirmation, not by itself proof of fraud. The domain is long-established and registered through GoDaddy.com, LLC, but that administrative history does not resolve the external threat detections or independently establish the operator's identity.

EVIDENCE

- Homepage content describes systems thinking, information architecture, visual communication, documentation, compliance and risk interpretation, and AI-integrated knowledge systems.
- Domain registered 2017-01-05 at 18:08:35 UTC; age 9.62 years; registrar GoDaddy.com, LLC.
- Hosting telemetry identifies AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- TLS telemetry records a DV certificate issued by YE1, valid to 2026-10-18 14:07:35 UTC.

What to Verify Next

Before any sensitive engagement, an independent party should confirm the operator's legal name and business status through an authoritative corporate or professional registry, and determine whether the proposed services require sector-specific authorization. Contact details and project claims should be confirmed through an independently sourced channel rather than relying solely on the website. Until those checks are complete, activity should remain limited to non-sensitive review.

EVIDENCE

- The supplied identity-verification result does not independently connect the site to a verified real-world operator.
- The homepage contains no sensitive submission form, login form, or payment workflow.
- The available content does not identify a licensing authority or license number.

Summary Verdict

The overall posture is **critical risk**, driven by confirmed external threat and blacklist signals that are materially inconsistent with treating the domain as trustworthy for sensitive interaction. The site's professional presentation and established technical characteristics do not overcome that contradiction, and the operator's real-world identity remains unverified.

Infrastructure Integrity

The website is protected by Cloudflare CDN and WAF infrastructure, with observed addresses functioning as CDN edge servers and no origin server address observable in the analysis. This reduces direct exposure of the origin and is a mitigating infrastructure characteristic, but it does not establish legitimacy and can limit independent verification of hosting continuity.

Closing Assessment

Prospective users should not submit credentials, initiate financial activity, or conduct other sensitive interactions until independent operator and service-status checks have been completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of imaginachine.com.

- The request stayed on imaginachine.com. It was not redirected to another domain. CLEAR

- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-05. NOTED
- The earliest public archive of this site is from 2020-08-07. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about imaginachine.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
