

Is impectorinternational.com a scam? TrustSniffer's high-risk assessment: 5/100

impectorinternational.com

Verdict

5

OUT OF 100

CRITICAL RISK

impectorinternational.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-09-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Impector International is a Pakistan-based custom apparel manufacturer site showcasing product categories (sports uniforms, street wear, jackets, accessories), manufacturing services (cut & sew, embroidery, dyeing), production steps, contact details, and ordering/contact options. No obvious phishing or crypto/payment-redirection indicators found in the page content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What impectorinternational.com served when TrustSniffer captured it on 2026-09-17. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Impector International is an ecommerce and manufacturing website presenting custom apparel, sports uniforms, streetwear, jackets, accessories, and production services such as cut-and-sew, embroidery, fabric dyeing, washing, private labeling, and packaging, with ordering and contact channels aimed at business and individual customers.

Scam/Impersonation Risk

The site's visible content presents a conventional apparel business and contains no detected login form, cryptocurrency functionality, wallet connection, payment redirection, or obvious phishing language. However, this benign page presentation is outweighed by confirmed external threat intelligence: the domain is blacklisted, 17 evaluated detections classified it as malicious, and Fortinet, Kaspersky, and Sophos identified a threat signal.

No conflicting legal-entity names, brand impersonation, or page-level phishing indicators were observed, but the external detections constitute a material contradiction and make sensitive interaction inappropriate. The domain's independently recorded history is also limited in duration, which provides little basis for offsetting the current reputation findings.

EVIDENCE

- The homepage presents sports uniforms, streetwear, jackets, accessories, and custom-manufacturing services, while the page analysis records no phishing or crypto-related indicators.
- The evaluated domain received 17 malicious detections and 1 suspicious detection; Fortinet, Kaspersky, and Sophos were among the flagged vendors, and an external blacklist condition was present.
- WHOIS records show registration on 2025-12-16, with an age of approximately 0.75 years.
- Historical records show 22 snapshots spanning 2024–2025, covering 2 years.

Regulatory Verification Notes

The available site content does not show a licensing or registration number, and the supplied material does not establish an independently verified legal operator. For an apparel manufacturer, this is a disclosure and commercial due-diligence gap rather than, by itself, proof of fraud. The website does provide product, process, contact, and ordering information, but those on-site claims should not be treated as independent confirmation of the business identity. Transport security is present, although the certificate is domain-validated only; this confirms encrypted transmission, not organizational legitimacy.

EVIDENCE

- The product and contact pages describe cut-and-sew, embroidery, dyeing, fabric washing, private-label, packaging, and ordering services without presenting a licensing authority or registration number.
- The site's TLS certificate was issued by YR1 at DV validation level and is valid through 2026-12-01.
- The page structure includes separate product, customization, production-process, and contact areas, but no independently verified corporate identity is established in the supplied records.

What to Verify Next

Before any account, credential, order, or payment interaction, an organization should independently confirm the manufacturer's legal name, physical operating details, and business registration through an authoritative Pakistani commercial registry or an independently obtained corporate contact. Any proposed transaction should use a payment method with dispute and buyer-protection mechanisms, and shipping, returns, sample-order, and refund terms should be confirmed in writing before funds are transferred. Official contact channels should also be validated through an independent route rather than relying solely on information presented by the website.

EVIDENCE

- The contact page provides direct ordering and communication channels but does not independently verify the operator.
- The product and customization pages describe commercial fulfillment and manufacturing services, making supplier, delivery, and refund checks relevant before payment.
- The site exposes two forms—a newsletter form and a contact form—with no sensitive form or external password destination detected.

Summary Verdict

The overall posture is **critical trust risk** because strong external malicious and blacklist findings contradict the site's otherwise ordinary commercial presentation. The website may represent a real apparel business, but that identity is not independently verified and the available evidence does not support sensitive interaction.

Infrastructure Integrity

The site resolves directly to hosting operated by WHG-DAL – WHG Hosting Services Ltd in the United Kingdom, on AS36454, with one identified likely origin address and no detected CDN or WAF layer. This is a basic hosting arrangement rather than a protective edge architecture; it neither proves malicious intent nor provides infrastructure-based mitigation for the reputation findings.

EVIDENCE

- Hosted on AS36454 through WHG-DAL – WHG Hosting Services Ltd, GB.
- The resolved address is 198.38.90.91, with one likely origin IP and no detected CDN.
- The infrastructure record identifies no CDN or WAF vendor.

Closing Assessment

Sensitive interaction should be withheld pending independent confirmation of the operator and external validation of the proposed transaction, with any future engagement limited to controls that preserve payment recovery and dispute rights.

Written analysis generated 2026-09-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.
Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of impectorinternational.com.

- The request stayed on impectorinternational.com. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by mysecurecloudhost.com, across 4 name servers. NOTED
- The registration is paid up to 2026-12-16. NOTED
- The earliest public archive of this site is from 2024-09-27. CLEAR
- It is hosted on WHG-DAL, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about impectorinternational.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
