

Is imtokenn.one a scam? TrustSniffer's high-risk assessment: 0/100

imtokenn.one

Verdict

0

OUT OF 100

CRITICAL RISK

imtokenn.one shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Minimal parked-domain page stating the domain may be for sale via Dynadot auctions. No services, forms, or external links present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

What imtokenn.one served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2026.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a minimal parked-domain page for imtokenn.one that tells visitors the domain may be available for sale through Dynadot auctions; it presents no active product, service, account, or transactional business model.

Scam/Impersonation Risk

Confirmed external threat intelligence identifies the domain as blacklisted, with malicious detections recorded by multiple security vendors and an active escalation condition associated with the volume of malicious findings. This is a material contradiction to treating the domain as suitable for sensitive interaction. The available evidence does not establish a separate brand-impersonation finding or conflicting legal identities, but the confirmed blacklist status alone supports a clearly cautionary assessment.

EVIDENCE

- External reputation assessment recorded 15 malicious and 1 suspicious detections from 21 evaluated results; Fortinet, Kaspersky, and Sophos were among the flagged vendors.
- The domain was marked by both blacklist sources represented in the assessment, while Google Safe Browsing recorded no malicious result.
- The homepage contains only a domain-sale notice and no login, credential, payment, or service flow that would otherwise explain the threat detections.

Regulatory Verification Notes

The site offers Terms of Service and Privacy Policy links but does not present an operating company, regulatory authority, license number, or regulated-service disclosure. Because the page is a parked domain rather than an operating financial or commercial service, this is primarily a verification and transparency gap; it does not independently establish fraud. The real-world operator remains unverified, and the available third-party broker context does not provide an affirmative regulatory basis for engagement.

EVIDENCE

- The homepage identifies the domain as imtokenn.one and states that it may be available through Dynadot auctions; no business entity or license claim is displayed.
- Domain registration records show registration on 2025-07-16 and an age of 1.1 years, with Dynadot Inc as registrar.
- TLS uses issuer YR1 with DV validation and is valid through 2026-10-14T19:22:18+00:00.

What to Verify Next

Before any future use, an independent check should confirm whether the domain has been legitimately transferred or repurposed and whether any later operator is a real, identifiable entity. Any purported financial, investment, or account service associated with the domain should be checked against the relevant official licensing registry and validated through independently sourced contact channels. Sensitive actions should remain suspended unless those checks resolve the external threat findings and establish a credible operator.

EVIDENCE

- The observed page has no forms, external links, wallet connection, or active transactional flow.
- Browser behavior recorded no external requests, no password form, no wallet-provider activity, and no clipboard-write activity during the observed interaction.
- The page exposes only the domain-sale, Terms of Service, and Privacy Policy content relevant to present verification.

Summary Verdict

The overall posture is **critical trust risk**, with the domain unsuitable for login, credential submission, financial activity, or other sensitive interaction. Its apparent legitimacy is not established, and the current page content does not provide a credible operating context that offsets the confirmed external threat signals.

Infrastructure Integrity

The site resolves directly to infrastructure operated by Trellian Pty. Limited in Australia rather than a detected CDN or WAF edge. This provides no meaningful protective infrastructure signal against the reputation findings; the observed hosting and origin posture should therefore be treated as a neutral technical fact, not as evidence of legitimacy.

EVIDENCE

- Hosted on AS133618, TRELLIAN-AS-AP — Trellian Pty. Limited, AU.
- Resolved to 103.224.212.142, with 1 unique IP and 1 likely origin IP; no CDN was detected.

Closing Assessment

No sensitive interaction should be undertaken with this domain; any future engagement should wait for independent operator, regulatory, and security validation.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of imtokenn.one.

- The request stayed on imtokenn.one. It was not redirected to another domain. CLEAR
- Registration is published under Dynadot Inc. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2026-07-16. NOTED
- The earliest public archive of this site is from 2026-03-10. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about imtokenn.one at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
