Full analysis

Overview

India Bazaar is a South African online Indian grocery store offering food, spices, beverages, snacks, household goods, personal-care and health products, and kitchenware through ZAR-priced ecommerce, account access, cart-based purchasing, and delivery tracking.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent retail model with ordinary product categories, shopping functionality, and delivery services, while behavioral inspection found no wallet activity, hidden forms, suspicious scripts, or unauthorized external activity. The site therefore presents no identified scam or impersonation concern.

- Domain registration records show creation in 2020, with an age of 5.76 years.
- Historical records contain 60 snapshots spanning 2021–2026, covering 6 tracked years.
- The homepage contains substantive retail content, visible ZAR pricing, product categories, cart functionality, and delivery tracking.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist finding.

Regulatory Verification Notes

The site operates as a conventional grocery retailer rather than presenting a regulated financial-service model. Its navigation includes About and Contact pages, but the supplied page content does not establish a named legal entity, registration number, or licensing information; this is a minor disclosure gap rather than evidence of deception. Registration records identify DIAMATRIX C.C. as registrar and Internet Republic as the organization, while no adverse broker association was identified.

- The homepage identifies the business as “India Bazaar” and describes an online Indian grocery operation.
- The site exposes About and Contact navigation for business-information review.
- Registration records list DIAMATRIX C.C. as registrar and Internet Republic as organization.

What to Verify Next

Before a commercial relationship, confirm the operating entity, returns policy, delivery terms, and payment-recipient details through the site’s About, Contact, and checkout pages. Where a jurisdiction-specific registration

requirement applies, match the disclosed entity against the relevant official registry.

- About page: confirm the legal operating entity and business terms.
- Contact page: confirm current customer-service channels and location details.
- Checkout page: confirm final pricing, delivery charges, and payment-recipient information.

Summary Verdict

The website has a high-trust posture and reads as a legitimate, established ecommerce business. No evidence supplied indicates phishing, impersonation, malicious behavior, or contradictory identity signals.

Infrastructure Integrity

Cloudflare provides the site’s CDN/WAF protection; the observed address represents edge infrastructure, and no origin candidate was identified. This reduces direct exposure of the underlying service while remaining a mitigating control rather than proof of legitimacy.

- Served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US), registered through ARIN, with country attribution CA.
- TLS certificate issued by WR1 with DV validation, valid to 2026-10-30.
- Observed edge IP: 23.227.38.65.

Closing Assessment

Normal interaction, including account login and standard purchasing activity, is appropriate, subject to routine confirmation of transaction details and business terms.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [indiabazaar.co.za](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
