- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Indus Appstore is an India-focused multilingual app and game marketplace presenting app discovery, video previews, secure downloads, developer publishing tools, and integrated platform services.

Scam/Impersonation Risk

No contradictions were observed. The homepage and observed site behavior are consistent with an ordinary marketplace: no impersonation, phishing, malicious-content, hidden-form, wallet-connection, cloaking, or credential-capture indicators were detected. The site's multi-year presence and continuous archival record further support an established identity.

- Domain registration: 2023-03-14; age 3.39 years.
- Archive history: 416 snapshots from 2023-09-23 through 2026-06-10, spanning 4 tracked years.
- The homepage was assessed with no content red flags or brand-impersonation indicators.

Regulatory Verification Notes

The site presents legal identity information, policies, and a contact address consistent with a professional marketplace. No regulated license or registration number is claimed in the supplied content; this is a transparency item for confirmation where relevant, not evidence of illegitimacy. The domain is registered through GoDaddy.com, LLC, while transport security and hosting use established commercial infrastructure.

- The legal, policy, and contact pages provide formal operating disclosures.
- No license claim or license number appears in the supplied site content.
- Hosted on AS16509 (Amazon.com, Inc.); TLS issued by Amazon RSA 2048 M01 (DV), valid to 2026-12-20.

What to Verify Next

Where institutional onboarding or regulated activity is contemplated, confirm any applicable licensing or corporate requirements through the relevant official registry. Independently validate the published support and developer channels before relying on them for escalation or contractual matters.

- The homepage claims that applications are tested for malware and security risks; app-level security documentation can be requested where material.
- The developer area advertises flexible payment choices and 24x7 dedicated support; those service commitments can be confirmed through official channels.

Summary Verdict

Indus Appstore is a legitimate, established, and trustworthy website with no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by AWS CloudFront CDN/WAF infrastructure, and all observed addresses were CDN edge servers rather than exposed origin addresses. This provides a meaningful protective layer for availability and network exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

- Observed CDN edge addresses: 18.165.140.112, 18.165.140.115, 18.165.140.38, and 18.165.140.95, all on AS16509.

Closing Assessment

Standard marketplace use is appropriate; institutional users should complete their normal procurement and regulatory checks before entering formal commercial arrangements.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of indusappstore.com.

- The request stayed on indusappstore.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by awsdns-28.org, across 4 name servers. NOTED
- The registration is paid up to 2030-03-14. CLEAR
- The earliest public archive of this site is from 2023-09-23. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about indusappstore.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
