- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2014.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Intelipost is a Brazilian B2B logistics-technology platform for ecommerce, retail, marketplaces, and logistics operators, presenting freight quotation, dispatch, delivery tracking, returns, invoice auditing, analytics, and integrations with more than 1,400 carriers.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent corporate SaaS model, with identifiable logistics products, customer case studies, specialist contact paths, privacy information, and a standard account-login route. The available content shows no phishing, credential-harvesting, brand-impersonation, deceptive financial, or malicious-website indicators.

- The homepage identifies Intelipost as a transportation-management platform and describes freight, delivery, returns, auditing, and control-tower services.
- The site's historical record shows continuous activity without suspicious repurposing.
- External reputation checks recorded zero malicious and zero suspicious detections.

Regulatory Verification Notes

Intelipost's disclosed business model is commercial logistics software rather than a financial service, and the available pages provide privacy and legal information consistent with that model. No financial-services license or registration number is presented; this is a limited disclosure point for regulatory due diligence, not evidence of impersonation or fraud. The available third-party broker dataset contains no matching warning.

- Domain registration record: registered 2014-03-17 and expiring 2028-03-17; approximately 12.39 years old.
- Web archive: 358 snapshots spanning 2014–2026, with 13 years tracked.
- Hosted on AS16509 (Amazon.com, Inc., US).
- TLS certificate issued by Amazon RSA 2048 M04, DV validation, valid to 2026-12-10.

What to Verify Next

For enterprise onboarding, confirm the contracting legal entity and any sector-specific obligations through the relevant Brazilian corporate or regulatory registry, then validate the intended account and support channels through an independently sourced corporate contact route.

- The homepage provides business contact paths and a specialist-demonstration workflow.
- The site identifies products for ecommerce, retailers, marketplaces, and logistics operators.

- The available legal and privacy pages support review of contractual and data-handling terms.

Summary Verdict

Intelipost presents as a legitimate, established, and trustworthy B2B software provider. Its coherent business purpose, sustained historical presence, clean external reputation, and stable technical operation support normal interaction, including account login and standard use.

Infrastructure Integrity

The site uses Amazon-hosted infrastructure with valid transport encryption. This is a mitigating infrastructure signal supporting service continuity and reducing direct exposure of hosting details, but it is not by itself proof of legitimacy.

Closing Assessment

Normal business engagement is appropriate, with ordinary enterprise procurement and contractual due diligence applied to any material commercial relationship.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of intelipost.com.br.

- The request stayed on intelipost.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-20.org, across 4 name servers. NOTED
- The registration is paid up to 2028-03-17. CLEAR
- The earliest public archive of this site is from 2014-06-25. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about intelipost.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
