

Is interbankbenefit.pe legit? TrustSniffer's high-trust assessment: 100/100

interbankbenefit.pe

Verdict

100

OUT OF 100

HIGH TRUST

interbankbenefit.pe appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 70%.

What this site appears to be

Spanish-language Interbank Benefit rewards portal where customers can sign in, review or redeem loyalty miles, browse gift cards, products and travel benefits, and learn about participating merchants and Interbank cards.

Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is a Spanish-language customer-loyalty marketplace for Interbank cardholders, providing account access and the ability to accumulate and redeem Millas Benefit for gift cards, merchandise, travel, and purchases through participating merchants.

Scam/Impersonation Risk

No phishing, impersonation, malicious-content, or conflicting legal-identity indicators were observed. The homepage presents a coherent rewards proposition, including account and redemption management, while interactive testing found no hidden forms, external password submission, cloaking, clipboard manipulation, or cryptocurrency-wallet activity. Its long-standing domain and substantial archival record further support an established service rather than a recently created imitation.

- The homepage consistently identifies the service as “Interbank Benefit” and describes Millas Benefit redemption through ordinary loyalty categories and affiliated merchants.
- The domain was registered in 2017 and is approximately 9.2 years old.
- The web archive contains 137 snapshots from 2017-06-03 through 2026-05-15, spanning 10 tracked years, with no detected suspicious repurposing or semantic drift.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no phishing finding, no threat-signature matches, and an established top-one-million traffic position at rank 708,138.

Regulatory Verification Notes

The supplied homepage operates as a rewards marketplace rather than presenting an investment, brokerage, or cryptocurrency service. It does not make a licensing claim, and the available page evidence does not establish that a sector-specific authorization is necessary for the functions shown. Administrative and certificate records identify digital business peru s.a.c. as the domain owner and BANCO INTERNACIONAL DEL PERU SAA as the organization authenticated by the site's organization-validated certificate; the evidence records no conflicting legal identities.

- The homepage promotes eligible Interbank credit cards and partner offers but presents no investment, brokerage, token, yield, or trading proposition.
- The domain-registration record names NIC.PE as registrar and digital business peru s.a.c. as owner.
- The site's transport encryption uses an organization-validated TLS certificate issued by DigiCert Global G2 TLS RSA SHA256 2020 CA1 to BANCO INTERNACIONAL DEL PERU SAA, valid until 2026-11-05.

- No third-party broker-profile match was identified; this is neutral reputational context and not a licensing determination.

What to Verify Next

Routine institutional due diligence may confirm that the current domain appears in Interbank’s independently obtained customer communications and that redemption terms, merchant conditions, expiry rules, and account-recovery procedures meet the intended transaction’s requirements. Official support channels can also be confirmed through a bank statement, card documentation, or another independently sourced Interbank channel.

- The homepage provides sign-in, registration, account-management, redemption-history, cart, and session-timeout functionality.
- The displayed catalogue covers vouchers, gift cards, products, travel rewards, Shopstar, and in-store redemption, making the applicable redemption conditions material to use.
- The observed page contained no hidden forms, no sensitive form posting to an untrusted destination, and no external password form.
- Two interactive test runs completed successfully without detected cloaking, wallet-drainer behavior, fingerprinting, or clipboard hijacking.

Summary Verdict

The website is a legitimate, established, and trustworthy customer-loyalty service. Its coherent institutional identity, durable provenance, clean external reputation, and benign observed behavior converge strongly, with no contradictory risk signals. Normal account login and standard use are appropriate.

Infrastructure Integrity

The service is delivered through Cloudflare’s mainstream CDN/WAF, with both observed addresses belonging to edge infrastructure; this reduces direct exposure of the origin but is a protective control rather than independent proof of legitimacy.

- The hosting infrastructure is served from AS13335 (CLOUDFLARENET — Cloudflare, Inc., US).
- The observed Cloudflare edge addresses were 104.18.4.189 and 104.18.5.189; no origin candidate was exposed during the analysis.

Closing Assessment

Prospective customers may use the service normally, including signing in and conducting standard rewards transactions, while applying ordinary banking hygiene and reviewing transaction terms before confirming a redemption.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100

Identity verification confidence	50%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of interbankbenefit.pe.

- The request stayed on interbankbenefit.pe. It was not redirected to another domain. CLEAR
- Registration is published under NIC.PE. CLEAR
- DNS for this domain is served by awsdns-61.org, across 4 name servers. NOTED
- The earliest public archive of this site is from 2017-06-03. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about interbankbenefit.pe at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
