- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Invest India is a government investment-promotion and public-information website presenting India's investment opportunities, sector research, policies, investor services, initiatives, and business news to prospective investors.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, or malicious reputation findings were observed. The homepage presents institutional investment information rather than soliciting deposits or selling financial products, and its observed behavior showed no login form, hidden form, wallet activity, or suspicious external submissions.

- The homepage identifies a government investment-promotion and public-information service covering sectors, policies, initiatives, and investor facilitation.
- The homepage contained no sensitive forms, hidden forms, or untrusted form destinations.
- Behavioral testing recorded zero external submissions, zero wallet-connect activity, and no cloaking or suspicious scripts.
- The domain was registered in 2009 and is approximately 16.77 years old; its archive contains 891 snapshots spanning 2010–2026 across 17 tracked years.

Regulatory Verification Notes

The site's identity and purpose are consistent with a public investment-promotion service, not a provider soliciting regulated deposits or offering brokerage products. The reviewed public content does not present a specific financial license or registration number; this is a limited disclosure point relevant only if a prospective engagement involves regulated services beyond the site's stated informational and facilitation role. The available external reputation context contains no matching broker warning.

- The homepage is hosted under the government-oriented `gov.in` namespace and presents Invest India's institutional investment-promotion role.
- Domain registration identifies National Informatics Centre as registrar and Invest India, Department for Promotion of Industry and Internal Trade as the organization.
- Hosted on AS16509 (Amazon.com, Inc., US).
- TLS certificate issued by YR2 with DV validation, valid to 2026-09-22.

What to Verify Next

For any transaction or formal investment engagement arising from the site, confirm the relevant entity, authorization, and offering through the applicable government or regulatory registry, and use contact details independently confirmed through official government channels.

- The homepage provides sector, policy, opportunity, and investor-facilitation information rather than a regulated product prospectus.
- The site's public content does not state a specific financial license or registration number.
- The contact and investor-service pathways should be matched against independently confirmed official channels before formal engagement.

Summary Verdict

The website presents a legitimate, established, and trustworthy public-service profile. Its institutional identity, sustained historical presence, clean technical and reputation signals, and consistent business purpose support normal interaction, including account login where provided and standard site use.

Infrastructure Integrity

The site is protected by AWS CDN/WAF infrastructure, with observed traffic served through an Amazon edge address and no origin candidate identified. This provides a meaningful layer of exposure mitigation, while remaining a protective infrastructure signal rather than proof of legitimacy.

- Served from 52.66.74.102 on AS16509 (Amazon Data Services India).
- AWS CDN/WAF protection was detected, with 1 observed edge IP and 0 likely origin IPs.
- Hosting provider: AMAZON-02 - Amazon.com, Inc., US.

Closing Assessment

Normal browsing, account interaction, and standard use are appropriate; formal investment decisions should remain aligned with independently confirmed government and regulatory information.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of investindia.gov.in.

- The request stayed on investindia.gov.in. It was not redirected to another domain. CLEAR
- Registration is published under National Informatics Centre. CLEAR
- DNS for this domain is served by gov.in, across 2 name servers. NOTED
- The registration is paid up to 2026-10-29. NOTED
- The earliest public archive of this site is from 2010-02-11. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about investindia.gov.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
