Key findings

- Automated classification: Governance Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Turkish local-service business site for Isparta Uydu Servisi, presenting satellite installation and channel-tuning, television repair, centralized television-system setup, and LNB replacement services. Its apparent business model is conventional paid service visits, parts, and installation work for customers in Isparta.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent local-service proposition, and the available technical and behavioral checks identified no phishing, credential-harvesting, wallet-draining, brand-impersonation, or malicious-script indicators. The site does not expose a login or sensitive data-submission form, which limits the immediate opportunity for credential theft. The overall evidence is therefore consistent with a genuine small service website, while not independently proving the operator's real-world identity.

EVIDENCE

- The homepage is categorized as a local business and repair-service site, with no reported fraud indicators or brand-impersonation matches.
- Behavioral testing recorded no login form, hidden sensitive form, external password form, wallet connection, clipboard hijack, or suspicious inline script.
- The domain was registered on 2023-12-01 and is approximately 2.72 years old.

Regulatory Verification Notes

The site's apparent service activity does not itself establish licensing or regulatory status. The reviewed material does not present a license claim or registration number, so the legal identity and any applicable local-business permissions remain a verification matter rather than evidence of wrongdoing. Independently connecting the website to a verified real-world operator remains unresolved. The registration record identifies ODTU Gelistirme Vakfi Bilgi Teknolojileri Sanayi Ve Ticaret Anonim Sirketi as registrar, which is a concrete administrative signal but not proof of the service provider's identity or authorization.

EVIDENCE

- The site's business profile records no claimed license authority and no license number.
- The domain registrar is ODTU Gelistirme Vakfi Bilgi Teknolojileri Sanayi Ve Ticaret Anonim Sirketi.
- The site uses a DV TLS certificate issued by YR1, valid through 2026-11-08.

What to Verify Next

Before a high-value service commitment or advance payment, the prospective customer should independently confirm the operating business name, physical service coverage in Isparta, pricing, warranty terms, and invoice or receipt arrangements. Any applicable municipal, trade, or sector-specific registration should be checked with the relevant official registry, and contact details should be confirmed through an independent route before sensitive information or payment details are exchanged.

EVIDENCE

- The site navigation includes "Kurumsal," "Referanslarımız," and "İletişim" sections that can be used to compare business and service information.
- The homepage provides a telephone-based service-request and emergency-contact workflow rather than an online account or payment workflow.

Summary Verdict

The website has a **moderate-trust posture**: its content and observed behavior are consistent with a conventional local repair and installation business, and no scam or impersonation contradiction was identified. The principal limitation is that the available evidence does not independently verify the operating entity behind the site.

Infrastructure Integrity

The site is served without a detected CDN or WAF layer and resolves to a single apparent origin, meaning its hosting endpoint is directly exposed rather than shielded by edge infrastructure. This is an infrastructure

observation and not, by itself, evidence of maliciousness.

EVIDENCE

- The site resolves to one apparent origin IP, 213.238.191.148, with no CDN edge IP detected.
- Hosting is provided from AS210388 by hayalhost - Hayal Host Internet Ve Bilisim Teknolojileri Sanayi Ticaret Limited Sirketi, TR.
- The hosting network is registered through RIPE NCC and geolocated to Türkiye.

Closing Assessment

Ordinary browsing and routine service enquiries are proportionate, but independent business and payment checks should precede high-value commitments, advance payments, or disclosure of sensitive personal information.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Dynamic Interaction Caution

- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ispartauyduservisi.com.

- The request stayed on ispartauyduservisi.com. It was not redirected to another domain. CLEAR
- Registration is published under ODTU Gelistirme Vakfi Bilgi Teknolojileri Sanayi Ve Ticaret Anonim Sirketi. CLEAR
- DNS for this domain is served by hayalhost.com, across 2 name servers. NOTED
- The registration is paid up to 2026-12-01. NOTED
- The earliest public archive of this site is from 2024-01-29. CLEAR
- It is hosted on hayalhost, from a server in TR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ispartauyduservisi.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
