Full analysis

Overview

TVSN is an Australian shopping-channel ecommerce website presenting a broad consumer-product catalogue with direct retail purchasing, memberships, promotions, and televised shopping content.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed malicious-reputation findings were observed. The homepage presents a coherent retail model with customer support, shopping functions, returns information, and product purchasing rather than unexplained or inconsistent activity. Normal account login and standard shopping interaction are therefore appropriate.

- The homepage identifies an ecommerce business offering consumer goods, memberships, promotions, and televised shopping content.
- Behavioral testing recorded no external activity, hidden forms, wallet activity, cloaking, or suspicious scripts.
- Domain history shows no suspicious repurposing, with 385 archive snapshots from 2000-10-06 through 2026-04-10.

Regulatory Verification Notes

The site presents corporate details, contact channels, customer-care information, delivery information, and returns content consistent with an established consumer retailer. No regulated-financial-service licensing claim was identified, but that is not inherently relevant to the stated retail model; any specific regulatory obligations should be assessed against the products and jurisdiction involved. External reputation checks found no malicious or suspicious detections, and no broker-dataset match was identified.

- The domain is registered through Domain Directors Pty Ltd trading as Instra, with TVSN CHANNEL PTY LTD recorded as the owner.
- The site's transport encryption uses a DV certificate issued by YR1, valid through 2026-10-18.
- The homepage provides 24/7 customer care, delivery information, returns information, and corporate details.

What to Verify Next

For higher-value purchases, confirm the applicable returns and delivery terms on the relevant site pages and independently validate the published corporate and customer-support details through an official offline channel. Where a transaction involves a regulated product or service, confirm the responsible business entity and any applicable licence with the relevant jurisdictional register.

- The homepage displays a 30-day money-back guarantee and delivery-information notice.

- The homepage provides telephone, email, and online-chat customer-support options.
- The site includes membership, order, preference, and shopping-bag functions.

Summary Verdict

The overall posture is that of a legitimate, established, and trustworthy website with strong identity, continuity, content, and technical indicators. No evidence supplied indicates scam activity, impersonation, phishing, or material security abuse.

Infrastructure Integrity

The website is protected by Akamai CDN/WAF infrastructure. Observed traffic resolved to the Akamai edge at 23.55.163.144 on AS20940, operated by Akamai International B.V.; the origin server was not observable in the assessment. This protection mitigates direct exposure but is treated as a supporting control rather than proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal account login and standard shopping transactions, applying ordinary commercial diligence for unusually large or consequential purchases.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about itvsn.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
