

Is jackpotcity.co.za safe? TrustSniffer's moderate-trust assessment: 65/100

jackpotcity.co.za

Verdict

65

OUT OF 100

MODERATE TRUST

jackpotcity.co.za is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Safe for Read-Only

Assessed 2026-08-12 by automated analysis. Classification confidence 70%.

What this site appears to be

Commercial online casino targeting South African players offering slots, live games, crash games (Aviator), and multiple promotions. Page includes registration/login CTAs, detailed promotional terms, payment methods in ZAR, and a licensing claim referencing Mpumalanga Economic Regulator.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Safe for Read-Only.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a South Africa-facing online casino presenting real-money wagering, promotional offers, ZAR payment options, and account registration and login functions. Its apparent business model is to monetize player deposits and wagering across an online gambling service.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, blacklist, or malicious-content indicators. External reputation telemetry was clean, and the site has an established traffic footprint and sustained archival presence. These signals support an apparently genuine commercial website, although they do not independently verify the real-world operator behind the service.

EVIDENCE

- The homepage was classified as a gambling/casino service and recorded no page-level red flags or suspected brand impersonation.
- External reputation telemetry recorded 0 malicious detections, 0 suspicious detections, 0 blacklist hits, and 0 abuse reports.
- The domain registration record shows creation in 2021-03-29, with an age of 5.38 years, through Lexsynergy Limited.
- Web-archive telemetry recorded 119 snapshots, first seen on 2012-11-17 and last seen on 2026-08-09, spanning 15 tracked years.

Regulatory Verification Notes

The homepage presents an “Official Licensed Site” positioning and references the Mpumalanga Economic Regulator, but the licensing claim was not independently verified in the supplied evidence. The legal and regulatory disclosure position should therefore be treated as unclear rather than as proof of authorization. The service offers slots, live-dealer games, Aviator crash games, promotions, jackpots, and real-money wagering, creating ordinary gambling, payment, and consumer-protection exposure even though no deceptive page behavior was identified. The registration record names Stanworth Development Limited as the organization, but the available evidence does not independently connect that entity to the operating brand.

EVIDENCE

- The homepage states that the service is licensed and references the Mpumalanga Economic Regulator; no independently verified license number is recorded.
- The domain registration record lists Stanworth Development Limited as the organization and Lexsynergy Limited as registrar.
- Hosting telemetry records AS13335, Cloudflare, Inc.; the site's TLS certificate was issued by WE1 using domain validation (DV) and is valid to 2026-10-05.
- The homepage provides promotional terms, ZAR payment information, and account registration and login functions.

What to Verify Next

Before material deposits or other sensitive actions, the claimed authorization should be confirmed directly with the relevant South African regulatory authority, including the licensed legal entity, scope, and current status. The operator named in the official terms should also be matched against independently sourced corporate and payment information. Promotional conditions, withdrawal rules, identity-check requirements, and available payment protections should be reviewed before funds are committed.

EVIDENCE

- The homepage contains a licensing claim that can be checked against the regulator's official records.
- The homepage presents detailed promotional terms that should be examined for wagering, expiry, and withdrawal conditions.
- The homepage provides payment methods denominated in ZAR, creating a basis for checking transaction protections and withdrawal procedures.
- The site exposes separate login and sign-up forms for account access and registration.

Summary Verdict

The website has a **moderate trust posture**: its content, technical operation, historical presence, and external reputation are consistent with an established commercial service, while independent verification of the operating identity and authorization remains incomplete. No evidence supports classifying it as an impersonation or malicious website.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF infrastructure, with observed traffic terminating on Cloudflare edge servers rather than an exposed origin. This reduces direct origin exposure and is a mitigating technical control, but protective hosting infrastructure alone does not establish business legitimacy.

Closing Assessment

Ordinary browsing is reasonable, but independent operator and authorization checks should be completed before substantial financial commitments or other sensitive account activity.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jackpotcity.co.za.

- The request stayed on jackpotcity.co.za. It was not redirected to another domain. CLEAR
- Registration is published under Lexsynergy Limited. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-29. NOTED
- The earliest public archive of this site is from 2012-11-17. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jackpotcity.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
