

Is jadoredesigns.co.za legit? TrustSniffer's high-trust assessment: 80/100

jadoredesigns.co.za

Verdict

80

OUT OF 100

HIGH TRUST

jadoredesigns.co.za appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be	J'adore Designs — a local bridal shop offering dress hire, custom gowns, bridesmaids and maternity/formal wear. The page lists services, contact phone/email, a street address in Brackenfell South, and a client gallery. No signs of financial investment, credential harvesting, or brand impersonation.

What jadoredesigns.co.za served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

J'adore Designs is a local bridal-services website presenting wedding-dress hire, custom gown creation, bridesmaid dresses, maternity wear, matric/farewell attire, contact details, and a client gallery, with an apparent business model based on direct sales, hire arrangements, custom orders, quotes, and bookings.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: the site presents a coherent bridal-shop purpose, has no login or credential-collection function, and shows no investment, cryptocurrency, payment-draining, phishing, or brand-impersonation indicators. External reputation is broadly clean, with no Google Safe Browsing hit, no confirmed external blacklist result, no abuse reports, and only one unconfirmed malicious classification from an external reputation check; that isolated signal is therefore treated as a soft reputational anomaly rather than evidence of impersonation or fraud. The historical record does not indicate suspicious repurposing or material semantic drift.

EVIDENCE

- The homepage describes wedding-dress hire, custom gowns, bridesmaid services, maternity wear, matric/farewell dresses, and a client gallery.
- The contact page presents a phone number, email channel, and street address in Brackenfell South; the available form is a contact form rather than a sensitive credential form.
- The domain was registered on 2019-02-01 and is approximately 7.55 years old.
- Historical archive coverage spans 2021-11-30 through 2025-02-10, with 16 recorded snapshots across 5 years.

Regulatory Verification Notes

The site reads as a retail and dressmaking service rather than a financial, investment, or other clearly regulated offering. No regulated license claim or license number is presented in the available site material, so regulatory licensing is not established and should be treated as a limited disclosure point rather than a fraud indicator. The real-world operator identity is not independently verified; accordingly, the apparent legitimacy of the business remains evidence-consistent rather than proven. Registration through Afrihost and the site's valid transport encryption provide supporting infrastructure context but do not independently establish legal ownership.

EVIDENCE

- The homepage identifies the business as "J'adore Designs" and provides service descriptions, contact details, and a physical location.
- The domain registrar is Afrihost, with an expiration date of 2027-02-01.
- The site is hosted on AS37611, Afrihost SP (PTY) LTD, South Africa.
- The TLS certificate is issued by YR2, uses Domain Validation (DV), and is valid until 2026-10-24 09:18:57 UTC.

What to Verify Next

Before any deposit, purchase, or submission of personal information, an independent check should confirm that the named shop, physical premises, and contact channels correspond to the same operating business. The applicable hire, cancellation, alteration, refund, and delivery terms should be obtained in writing, and payment should use a method offering appropriate dispute and payment-protection mechanisms. Any identity or licensing representation made outside the available pages should be checked directly with the relevant official registry or through an independently sourced contact route.

EVIDENCE

- The site's stated transaction path is based on quote requests and bookings rather than an account-login workflow.
- The identity assessment remains unverified, leaving ordinary merchant-identity confirmation as the principal outstanding diligence step.
- The available page material does not provide a license authority or license number for independent confirmation.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate local business. No scam, phishing, impersonation, or conflicting-identity indicators were observed, although the operator’s real-world identity is not independently verified.

Infrastructure Integrity

The site resolves directly to infrastructure operated by Afrihost SP (PTY) LTD in South Africa, with no CDN or WAF identified and one likely origin address. This is a conventional, attributable hosting arrangement; the valid DV TLS certificate mitigates transport-level interception concerns but should not be treated as proof of business legitimacy.

EVIDENCE

- Hosting infrastructure: AS37611, Afrihost SP (PTY) LTD, ZA.
- Resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN was detected.
- TLS validation level is DV; issuer YR2; validity ends 2026-10-24 09:18:57 UTC.

Closing Assessment

The site is suitable for ordinary low-risk browsing and initial business enquiries; account, payment, or other consequential interactions should follow standard independent merchant-identity, terms-and-conditions, and payment-protection checks.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jadoredesigns.co.za.

- The request stayed on jadoredesigns.co.za. It was not redirected to another domain. CLEAR
- Registration is published under Afrihost. CLEAR
- DNS for this domain is served by co.za, across 4 name servers. NOTED
- The registration is paid up to 2027-02-01. NOTED

- The earliest public archive of this site is from 2021-11-30. [CLEAR](#)
- It is hosted on AFRIHOST SP (PTY) LTD, from a server in ZA. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jadoredesigns.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
