

Is jaspis.edu.pl safe? TrustSniffer's low-trust assessment: 40/100

jaspis.edu.pl

Verdict

40

OUT OF 100

LOW TRUST

jaspis.edu.pl is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be	Website for JASPIS, a Polish association (Stowarzyszenie Powszechnych Inicjatyw Społecznych) describing the organization, projects (food-sharing, community cafe), events, trainings and partner information. Content is informational and aimed at community engagement and funding/volunteer opportunities.

The page as captured

<https://jaspis.edu.pl/>

What jaspis.edu.pl served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is the public informational site of JASPIS, identified on its pages as the Polish association “Stowarzyszenie Powszechnych Inicjatyw Społecznych.” It presents community projects, food-sharing initiatives, a planned social café, events, training information, partner cooperation, and opportunities for community participation, reflecting a non-profit and donation- or volunteer-supported operating model.

Scam/Impersonation Risk

The site's visible content is consistent with a local community association and does not show a login form, sensitive-data form, wallet connection, external submission mechanism, or page-level brand-impersonation signal. However, this benign presentation is materially outweighed for sensitive use by external threat intelligence recording malicious detections and a confirmed blacklist status. No conflicting legal-entity names, direct impersonation indicators, or phishing indicators were observed in the supplied page findings, but the external reputation contradiction warrants treating login, credential submission, donations, and other financially consequential interaction as unsafe until independently resolved.

EVIDENCE

- The homepage identifies JASPIS as “Stowarzyszenie Powszechnych Inicjatyw Społecznych” and describes food-sharing, community-café, event, and social-program activities.
- The observed site behavior recorded no login form, hidden form, password submission, wallet-provider activity, clipboard hijacking, or suspicious inline script.
- External reputation checks recorded 2 malicious detections and a confirmed blacklist status.

Regulatory Verification Notes

The About, Team, Statute, Projects, Partners, and Contact areas provide an apparent organizational narrative, but the real-world operator remains independently unverified. The pages do not present a regulatory license or authorization number; for an association whose stated model is community activity rather than regulated financial services, this is a disclosure and verification matter rather than proof of wrongdoing. Ownership and governance details should therefore be treated as insufficiently established, while the absence of a matching broker record provides only limited contextual reassurance and is not a legal or regulatory finding.

EVIDENCE

- The About and Statute pages identify the association and describe its organizational purpose, projects, and community activities.
- The domain was registered on 2018-02-23 and is approximately 8.49 years old; registrar: LH.pl Sp. z o.o.
- Historical coverage is recorded across 8 years, from 2019-07-03 to 2026-02-06, but is sparse.
- The site's hosting infrastructure is served from AS203417, LHPL - LH.pl Sp. z o.o., PL; its TLS certificate is DV, issued by YR1, valid to 2026-10-14.

What to Verify Next

Before any sensitive interaction, an independent party should confirm that JASPIS is the intended association through an authoritative Polish association or public-registration source, using contact details obtained independently rather than relying solely on the website. Any proposed donation or payment should be directed only to an account or processor whose beneficiary name matches the independently confirmed organization. Official support and contact channels should also be confirmed through an offline or independently sourced route, and the external blacklist result should be rechecked before access is expanded beyond public reading.

EVIDENCE

- The site's About, Team, Statute, and Contact pages provide the specific organizational claims requiring independent confirmation.
- The Projects and Partners pages identify the activities and relationships that can be validated with the named organizations or venues.
- The homepage contains no sensitive submission form, allowing initial validation to remain limited to publicly presented information.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The website’s community-association presentation is coherent at page level, but the confirmed external reputation contradiction prevents the site from being treated as trustworthy for credentials, payments, donations, or other sensitive actions. Identity remains apparent rather than independently verified.

Infrastructure Integrity

The site resolves directly to a single likely origin rather than a detected CDN or WAF edge, so there is no identified edge-layer protection to mitigate infrastructure exposure. Transport encryption is present, but the certificate is domain-validated only; these controls support encrypted delivery and do not establish operator legitimacy.

EVIDENCE

- Hosting resolves to 185.135.88.116 in Poland, with 1 unique IP and 1 likely origin IP; no CDN was detected.
- The hosting network is AS203417, LHPL - LH.pl Sp. z o.o., PL.
- TLS issuer: YR1; validation level: DV; certificate valid to 2026-10-14T04:22:57+00:00.

Closing Assessment

The proportionate disposition is to restrict activity to public, read-only review while independently confirming the organization and resolving the external reputation issue before permitting credentials, donations, payments, or other sensitive engagement.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jaspis.edu.pl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
