

Is jetbrains.com.cn legit? TrustSniffer's high-trust assessment: 80/100

jetbrains.com.cn

Verdict

80

OUT OF 100

HIGH TRUST

jetbrains.com.cn appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

Official JetBrains product and corporate site (Chinese). Provides product descriptions for IDEs and team tools, enterprise offerings, education and community resources, trust/certification claims, and links for support and sales.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This Chinese-language website presents JetBrains-branded developer software and team solutions, including integrated development environments, AI-enabled coding tools, collaboration products, education resources, and enterprise offerings; its apparent business model is the sale of software subscriptions, licenses, training, and support services.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The homepage's product structure and terminology are consistent with a corporate software vendor, and external reputation checks recorded no malicious or suspicious detections. Runtime observation identified some non-whitelisted network activity and suspicious inline scripts, but no hidden forms, external password forms, wallet-provider activity, or wallet-drainer behavior; this is therefore treated as a limited technical anomaly rather than evidence of impersonation. The real-world operator identity remains independently unverified, so the site's brand presentation should not be treated as conclusive proof of corporate ownership.

EVIDENCE

- The homepage is labelled “JetBrains: 软件开发者和团队的必备工具” and lists IDEs, TeamCity, YouTrack, Qodana, Kotlin, Junie, and other JetBrains products without identified phishing or impersonation indicators.
- Domain registration telemetry records a creation date of 2005-12-30T14:24:59Z and an age of 20.62 years.
- Web-archive telemetry records 547 snapshots from 2015-04-15T02:54:59Z through 2026-08-02T23:05:13Z, with 12 years tracked.
- Homepage runtime observation recorded 2 suspicious inline scripts and 10 non-whitelisted external network events, while recording 0 hidden forms, 0 external password forms, 0 wallet-provider detections, and 0 wallet-drainer runs.

Regulatory Verification Notes

The reviewed content describes a conventional corporate software business rather than a financial or otherwise regulated service. It offers subscription and perpetual software licensing, enterprise services, training, and support, but no third-party regulated status or regulatory license claim was established in the supplied evidence. The site provides product, support, account, licensing, and sales pathways; however, because the operator

identity is not independently verified, those on-site presentations establish an apparent commercial identity rather than independently proving the contracting entity. No separate broker-reputation match was identified.

EVIDENCE

- The homepage's business model is software licensing and enterprise services, with product, support, account, and sales navigation.
- The site's hosting resolves through AS55960, BJ-GUANGHUAN-AP - Beijing Guanghuan Xinwang Digital, CN.
- The site's TLS certificate uses DV validation, is issued by YR1, and is valid to 2026-09-23T10:19:32+00:00.
- Registration telemetry identifies 厦门易名科技股份有限公司 as the registrar.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm the contracting entity behind the site, review the applicable subscription, cancellation, renewal, and refund terms, and ensure that payment protections are available through the selected payment method. Official support and sales channels should be confirmed through an independently sourced JetBrains corporate route rather than relying solely on contact details presented during the transaction. If a transaction involves a regulated service outside the software products described on the homepage, the relevant regulator's registry should also be checked.

EVIDENCE

- The homepage includes account and license-management pathways, making the applicable contracting and account terms relevant to any transaction.
- The homepage includes a "contact sales" pathway for commercial engagement, supporting independent confirmation of the sales counterparty.
- The available assessment classifies the site's business model as established corporate software with a low page-level risk profile.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. No contradictory scam or impersonation indicators were observed, although the independent linkage between the website and a real-world operator remains unverified.

Infrastructure Integrity

The site uses direct hosting rather than a detected CDN edge, so CDN-based origin shielding is not a material mitigating factor. The resolved infrastructure is nevertheless identifiable and assessed as trusted, with no infrastructure condition that contradicts the overall low-risk determination.

EVIDENCE

- Infrastructure telemetry records 2 unique IP addresses, 0 edge IP addresses, and 2 likely origin IP addresses; no CDN was detected.
- Hosting is provided by BJ-GUANGHUAN-AP - Beijing Guanghuan Xinwang Digital, CN, on AS55960, with APNIC as the registry.

Closing Assessment

Ordinary business engagement is proportionate to the assessment, subject to independent confirmation of the merchant identity, applicable commercial terms, and payment protections before credentials or payment details are submitted.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jetbrains.com.cn.

- The request stayed on jetbrains.com.cn. It was not redirected to another domain. CLEAR
- Registration is published under 厦门易名科技股份有限公司. CLEAR
- DNS for this domain is served by awsdns-cn-58.cn, across 6 name servers. NOTED
- The registration is paid up to 2026-12-30. NOTED
- The earliest public archive of this site is from 2015-04-15. CLEAR
- It is hosted on BJ-GUANGHUAN-AP, from a server in CN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jetbrains.com.cn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
