

Is jewelone.in legit? TrustSniffer's high-trust assessment: 100/100

jewelone.in

Verdict

100

OUT OF 100

HIGH TRUST

jewelone.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Public-facing jewellery retailer site showing daily metal rates, brand pages, schemes, and contact details. Primary function is product sales and customer inquiries.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

JewelOne is a public-facing jewellery retail website presenting daily gold, silver, platinum, and diamond offerings, branded collections, store schemes, customer contact information, and metal-rate updates; its apparent business model is direct jewellery sales supported by in-store customer inquiries and promotional schemes.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavior, and external reputation signals. The homepage presents a coherent jewellery-retail proposition, including daily metal rates, named collections such as Zilara and Florencia, store information, and customer-facing schemes rather than investment, credential-harvesting, or high-risk financial services. No brand-impersonation, phishing, malicious behavior, or abuse indicators were identified in the supplied evidence. The available evidence is therefore consistent with an established, apparently legitimate retail website, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies JewelOne as a gold and diamond jewellery store and displays daily rates for 22KT, 18KT, and 14KT gold, platinum, and silver.
- The homepage and site navigation expose About, Our Schemes, Careers, Contact Us, Our Brands, and Store content, with no login form or sensitive data-collection form detected.
- The domain was registered on 2007-03-07 and is approximately 19.47 years old.
- Archive records show 90 snapshots spanning 2009–2026, with 18 years tracked.

Regulatory Verification Notes

The available pages support a consumer jewellery-retail model, but the supplied content does not show a clearly stated legal entity, registration number, or applicable licence or regulatory authorization. This is a disclosure and verification gap rather than evidence of deception, particularly because no conflicting legal identities or impersonation indicators were found. Registration records associate the domain with Emerald Jewellery Retail Ltd. and identify Endurance International Group India Private Limited as registrar, but those records do not independently establish that the on-site business is operated by that entity. The site's metal-rate display and commercial schemes should consequently be assessed under the ordinary consumer, trade, and payment-protection requirements applicable to the relevant jurisdiction.

EVIDENCE

- The About, Our Schemes, Careers, and Contact Us navigation is present, but the supplied homepage content does not display a legal registration number or licence reference.
- Domain registration records list Emerald Jewellery Retail Ltd. as the organization and Endurance International Group India Private Limited as registrar.
- The site's transport encryption uses a DV certificate issued by YE1, valid through 2026-10-23.

What to Verify Next

Before a credential or payment interaction, an independent check should confirm that the merchant identity and physical retail presence correspond to the business represented by the website. Applicable jewellery-trade, consumer-protection, tax, or local registration details should be checked through the relevant official registry, and the published return, refund, delivery, warranty, and payment-protection terms should be reviewed before a material purchase. Contact details should also be cross-checked through an independent offline or established business source rather than relying solely on the website.

EVIDENCE

- The site provides dedicated About, Contact Us, Store, and Our Schemes pages that can be used as the primary merchant-verification references.
- The homepage's stated commercial activity is jewellery retail and customer inquiry handling, not regulated financial activity.
- The site includes a newsletter/contact form, while the supplied analysis found no sensitive form or untrusted form destination.

Summary Verdict

The overall posture is **high trust and low risk**, with the available evidence consistent with an established, apparently legitimate website. No scam, phishing, impersonation, or identity-contradiction signal was observed, but the operator’s real-world identity is not independently verified.

Infrastructure Integrity

The site resolves through F5 - F5 Networks SARL infrastructure, with a single resolved hosting address and no separately detected CDN edge-IP layer. The hosting environment is assessed as a trusted protective infrastructure context and provides a mitigating technical signal, but infrastructure protection alone does not establish merchant legitimacy.

EVIDENCE

- Hosted on AS35280 (F5 - F5 Networks SARL, FR), with one resolved IP address, 159.60.64.236.
- The site's transport encryption is DV-validated and issued by YE1, with certificate validity ending 2026-10-23.

Closing Assessment

Ordinary browsing and standard retail engagement are proportionate to the assessed posture, subject to independent merchant-identity, return-policy, and payment-protection checks before submitting credentials or completing a purchase.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jewelone.in.

- The request stayed on jewelone.in. It was not redirected to another domain. CLEAR
- Registration is published under Endurance International Group India Private Limited. CLEAR
- DNS for this domain is served by awsdns-27.org, across 4 name servers. NOTED
- The registration is paid up to 2029-03-07. CLEAR
- The earliest public archive of this site is from 2009-08-16. CLEAR

- It is hosted on F5, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jewelone.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
