

Is jobhuntsimplified.com safe? TrustSniffer's moderate-trust assessment: 70/100

jobhuntsimplified.com

Verdict

70

OUT OF 100

MODERATE TRUST

jobhuntsimplified.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Safe for Read-Only

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

JobHuntSimplified is an informational job-search and career-advice site offering articles on resumes, interviews, career changes, and related guidance. The site disclaims affiliation with employers and provides policies like privacy and contact links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Safe for Read-Only.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2025.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

JobHuntSimplified is an informational job-search and career-advice website presenting resume guidance, interview preparation, career-change articles, company reviews, salary and interview information, resume-building tools, and aggregated job listings, with an apparent business model based on advertising, affiliate referrals, or related lead generation.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents ordinary career guidance rather than a financial, investment, or credential-harvesting service; available analysis found no phishing, brand-impersonation, malicious-content, or sensitive-login indicators. The site also expressly disclaims affiliation with employers, which helps distinguish its informational role from direct employer representation. Its identity is not independently verified, so the absence of active threat signals supports a measured, low-concern assessment but does not establish the real-world operator.

EVIDENCE

- Homepage: career advice covers resumes, interviews, career changes, soft skills, portfolios, jobs, and internships; no fraud red flags were identified.
- Homepage behavior: no login form, sensitive form, hidden form, or untrusted form destination was detected.
- External security checks: no malicious or suspicious flag, phishing indication, or blacklist result was recorded; the available reputation coverage was partial.
- Registration and archive records: registered 2025-05-30 (~1.23 years old); 5 archive snapshots spanning 2025–2026 (2 years tracked).

Regulatory Verification Notes

The site appears to operate as an informational career-content and job-listing service, not as a stated regulated financial or employment-authority entity. Its privacy and contact links provide basic policy structure, while the supplied pages do not present a named regulatory authorization or license number; this is a transparency point for business-identity verification rather than evidence of misconduct. The available third-party broker dataset produced no match, but that result is contextual and does not constitute a licensing determination. Transport and network indicators are technically consistent with a functioning public website, although a domain-validated certificate confirms control of the domain rather than the operator's legal identity.

EVIDENCE

- Policy and contact pages: privacy and contact links are provided, while the supplied content does not state a regulatory license or license number.
- Domain registration: Cloudflare, Inc. is the registrar; creation date 2025-05-30T12:54:02Z and expiration date 2027-05-30T12:54:02Z.
- Hosting and TLS telemetry: hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US); TLS certificate issued by WE1 at DV validation level, valid to 2026-10-16T00:32:17+00:00.

What to Verify Next

Before relying on the site for consequential employment decisions or submitting detailed personal information, the operator identity, business address, and contact channels should be matched across the site's legal and contact pages and, where relevant, confirmed through independent employer or recruiter channels. Any job listing should be checked against the named employer's official careers page, and the site's privacy terms should be reviewed to understand whether resume or applicant information is shared with advertising, affiliate, recruiter, or lead-generation partners.

EVIDENCE

- Legal, privacy, and contact pages: use the disclosures as the starting point for confirming the responsible business and data-handling practices.
- Job-listing and employer references: compare advertised roles with the relevant employer's independently sourced careers page before submitting an application.

Summary Verdict

The overall posture is **moderate trust with no observed scam or impersonation contradiction**. The available evidence is consistent with a genuine informational career website suitable for ordinary browsing and read-only use, while the operator’s real-world identity remains unverified and consequential reliance warrants independent confirmation.

Infrastructure Integrity

The site is protected by Cloudflare’s CDN/WAF infrastructure, and observed addresses were CDN edge addresses rather than an exposed origin. This provides a meaningful defensive layer against direct infrastructure exposure, but it is a mitigating technical control rather than proof of business legitimacy.

Closing Assessment

Ordinary informational use is reasonable; independent identity, employer, privacy, and contact-channel checks should precede sensitive submissions or high-value decisions.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jobhuntsimplified.com.

- The request stayed on jobhuntsimplified.com. It was not redirected to another domain. CLEAR
- Registration is published under Cloudflare, Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-30. NOTED
- The earliest public archive of this site is from 2025-07-12. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jobhuntsimplified.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
