Full analysis

Overview

Jobspresso is a curated remote-job marketplace presenting technology, marketing, sales, support, design, and other work-from-anywhere opportunities, while monetizing through employer job postings, promotions, and related audience engagement.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavioral, or external-reputation signals. The homepage presents a coherent job-board model, links to ordinary employer and support functions, and shows no clear phishing, credential-harvesting, deceptive financial, or brand-impersonation behavior. External checks found no confirmed blacklist or phishing designation, and the site has a sustained historical presence consistent with an established service.

- The homepage identifies Jobspresso as a remote-job board with categorized listings and employer posting options.
- The homepage has no sensitive submission form or login form exposed in the observed interaction.
- The domain has 321 archive snapshots spanning 2015–2026, covering 12 years of tracked activity.

Regulatory Verification Notes

Jobspresso presents as an employment marketplace rather than a regulated financial service. The supplied site material does not identify a licensing authority or registration number; this is a limited disclosure point requiring context-specific verification, not evidence of deception. Registration through GoDaddy.com, LLC and the site's long operating history provide affirmative establishment signals, while registration privacy is an administrative detail.

- Domain registration: 2015-03-28; approximately 11.35 years old.
- Registered through GoDaddy.com, LLC, with expiry recorded as 2027-03-27.
- The homepage and navigation expose Company, Support, FAQ, employer-pricing, and social-presence functions, but no licensing authority or registration number is shown in the supplied content.
- The site's transport encryption uses a DV certificate issued by WE1, valid through 2026-10-18.

What to Verify Next

For a specific opportunity, independently confirm the employer's legal identity, role terms, compensation arrangements, and any applicable licensing requirements before accepting an offer or sharing sensitive employment documents. Official support and social channels should be cross-checked through independently sourced contact information.

- The homepage displays employer names, role descriptions, eligibility locations, and employment classifications for listed opportunities.
- Employer posting and promotion options are presented as the site's commercial functions.
- The site links to Twitter and Facebook for ongoing updates and audience engagement.

Summary Verdict

Jobspresso is a legitimate, established, and trustworthy remote-employment marketplace with a coherent business purpose and no observed impersonation or phishing contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic served through Cloudflare edge addresses rather than a directly exposed origin. This provides a meaningful defensive layer against infrastructure abuse and origin exposure, while remaining a mitigating control rather than proof of legitimacy.

Closing Assessment

Standard browsing, account use, and engagement with ordinary job-board functions are appropriate, with normal employment due diligence applied to individual listings and employers.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jobspresso.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
