- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Jondi.fr is a French local-events calendar and city guide focused on Dijon, presenting event listings, articles, venue information, monthly scheduling, category-based discovery, and newsletter signup; its apparent business model is content publishing supported by advertising, sponsored listings, partners, and local promotions.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: there were no phishing, impersonation, blacklist, malicious-content, or conflicting-identity indicators. The homepage presents a coherent local editorial service rather than a financial, investment, deposit-taking, or credential-harvesting operation. Its event categories, Dijon-focused articles, venue listings, newsletter form, and links to Facebook, Twitter, and Instagram are consistent with the stated city-guide purpose. The available evidence therefore supports an apparently legitimate, low-risk informational site, while the real-world operator remains not independently verified.

EVIDENCE

- The homepage identifies the service as “Jondi.fr - Agenda des événements - Sortir à Dijon” and presents event listings, Dijon guide content, venue categories, articles, and a monthly calendar.
- The homepage contains one newsletter-signup form and no login form, hidden form, password submission, wallet connection, or sensitive-data form.
- External reputation checks recorded zero malicious detections, zero suspicious detections, no Google Safe Browsing warning, no blacklist match, and zero abuse reports.

Regulatory Verification Notes

The site’s apparent activity is informational and locally promotional, with no evidence of financial investment services, user deposits, or regulated transaction flows. No licensing claim or license number is presented in the supplied site content; for this business model, that is a transparency item to clarify rather than evidence of deception. The available page content is substantial and internally consistent, although the operator’s legal identity is not independently established by the evidence reviewed. The site’s apparent legitimacy is also consistent with a long-established registration, continuous historical presence, clean external reputation, and valid transport encryption.

EVIDENCE

- The domain was registered on 2013-01-17 and is approximately 13.59 years old; registration is through SCALEWAY and expires on 2027-09-28.
- Historical records show 193 archive snapshots spanning 2013–2026, covering 14 tracked years.
- The site is served from AS50474, O2SWITCH - O2SWITCH SAS, France.
- The transport certificate is issued by YR1, uses DV validation, and is valid through 2026-10-18.

What to Verify Next

Before any credential or payment interaction associated with an event, promotion, or partner listing, an interested party should independently confirm the relevant merchant or organiser, review applicable cancellation or refund terms, and use payment methods offering ordinary consumer protection. Any licensing question should be assessed against the actual activity being offered, rather than inferred from the site’s general events-guide function. Official contact channels and partner identities should be confirmed through independent local or offline references where a transaction is involved.

EVIDENCE

- The homepage labels some listings as “Événements sponsorisés,” indicating that sponsored content may require separate organiser or advertiser validation.
- The site describes advertising, partners, and local promotions as monetisation channels rather than presenting a regulated financial service.
- The available evidence shows no sensitive form or external password submission, so verification should focus on any separate transaction or partner destination reached from an event listing.

Summary Verdict

Jondi.fr presents an **established, apparently legitimate, low-risk informational profile**. The evidence is strongly consistent with a genuine local-events and city-guide service, and no scam or impersonation contradiction was identified. Operator identity should nevertheless be treated as likely rather than proven.

Infrastructure Integrity

The site resolves to a single French-hosted address on AS50474 operated by O2SWITCH - O2SWITCH SAS, with no CDN or WAF detected. Its direct hosting arrangement is technically straightforward, while the valid DV TLS certificate issued by YR1 provides transport protection; these infrastructure facts support ordinary integrity assessment but do not independently establish the operator's identity.

Closing Assessment

Normal browsing and newsletter use are proportionate to the assessed posture; before submitting credentials or payment details, ordinary independent checks of the relevant merchant identity, transaction terms, and payment protection should be completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jondi.fr.

- The request stayed on jondi.fr. It was not redirected to another domain. CLEAR
- Registration is published under SCALEWAY. CLEAR
- DNS for this domain is served by o2switch.net, across 2 name servers. NOTED
- The registration is paid up to 2027-09-28. NOTED
- The earliest public archive of this site is from 2013-04-07. CLEAR
- It is hosted on O2SWITCH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jondi.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
