

Is jtsglb.com a scam? TrustSniffer's high-risk assessment: 5/100

jtsglb.com

Verdict

5

OUT OF 100

CRITICAL RISK

jtsglb.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Japanese organizational WordPress site providing activity reports and related links. No forms requesting credentials or payments. Appears informational.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	4 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	0 reports AbuseIPDB; shared hosting inflates this count	NOTED

The page as captured

<https://www.jtsglb.com/>

What jtsglb.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This Japanese-language WordPress website presents an organizational unit, “Global Promotion Department,” publishing annual plans, activity reports, study visits, training information, and links to related sites. Its apparent purpose is informational rather than commercial, with no visible payment, trading, or credential-collection business model.

Scam/Impersonation Risk

The site’s visible content does not show brand impersonation, an identity contradiction, phishing forms, or a financial solicitation. However, external threat intelligence recorded multiple malicious detections and a confirmed blacklist status from more than one source. That external evidence is a material contradiction to the otherwise benign informational presentation and drives a critical risk posture; the absence of harmful page mechanics does not neutralize the reputation finding.

EVIDENCE

- External reputation assessment recorded 4 malicious and 1 suspicious detections, with confirmed blacklist status across two sources.
- Domain registration continuity indicates an age of 4.695414099931554 years.
- Archive coverage is recorded from 2021-12-10T11:50:55Z through 2025-07-12T02:49:50Z, spanning 5 years tracked.

Regulatory Verification Notes

The available pages describe organizational activities and related-site links but do not establish a regulated financial service or present a licensing claim or license number. This is a disclosure and verification gap rather than an independent finding of fraud. The available third-party broker dataset contains no matching broker record, which provides limited contextual reassurance but is not a licensing or regulatory determination. The site's valid transport certificate and identifiable hosting are technical controls only and do not establish the operator's identity.

EVIDENCE

- The homepage title identifies “グローバル推進部 – Challenge the next 50” and the page content is organized around annual policies, reports, visits, and training.
- The site is hosted on AS18403, FPT-VN - FPT Telecom Company, VN.
- TLS uses a DV certificate issued by GlobalSign GCC R6 AlphaSSL CA 2025, valid through 2026-11-26T08:36:54+00:00.

What to Verify Next

Before any sensitive interaction, an organization should independently confirm that this domain is an authorized web property through a known corporate website, an independently sourced telephone number, or an established offline contact. Any organizational affiliation referenced by the site should be checked against official records, and access should remain limited to passive reading until the domain's external reputation status and authorization are resolved. If the site later introduces account, payment, or document-submission functions, those functions should undergo separate validation.

EVIDENCE

- The homepage contains 0 forms, including 0 sensitive forms and 0 login forms.
- Behavioral testing recorded 0 external XHR requests, 0 external POST requests, 0 hidden forms, and 0 suspicious inline scripts across 2 successful runs.
- The page links to Facebook and related organizational resources but provides no structured metadata or meta description.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. The site appears informational in presentation, but the confirmed external threat detections represent a decisive trust contradiction that outweighs

the benign page structure and limits the site to non-sensitive, read-only consideration pending independent authorization.

Infrastructure Integrity

The site resolves directly to infrastructure operated by FPT-VN - FPT Telecom Company in Vietnam, without a detected CDN or WAF layer; the infrastructure therefore offers limited intermediary protection and does not independently support legitimacy. The certificate provides encrypted transport, but its DV validation level confirms domain control rather than organizational identity.

EVIDENCE

- Resolved hosting: 42.117.228.250, AS18403, FPT-VN - FPT Telecom Company, VN.
- CDN/WAF detection: none; 1 unique IP and 1 likely origin IP were identified.

Closing Assessment

Sensitive actions should remain suspended until independent organizational authorization and the site’s external reputation have been satisfactorily confirmed; passive viewing is the proportionate interim use.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jtsglb.com.

- The request stayed on jtsglb.com. It was not redirected to another domain.

CLEAR
- The earliest public archive of this site is from 2021-12-10.

CLEAR

- It is hosted on FPT-VN, from a server in VN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jtsglb.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
