

Is juazeiroresidencehotel.com.br a scam? TrustSniffer's high-risk assessment: 0/100

juazeiroresidencehotel.com.br

Verdict

0

OUT OF 100

CRITICAL RISK

juazeiroresidencehotel.com.br shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Local hotel website (Juazeiro Residence Hotel) in Portuguese describing rooms, services, breakfast, local event agenda, contact phone and email, and an online pre-reservation form. Appears to be a standard hospitality booking page.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://juazeiroresidencehotel.com.br/

What juazeiroresidencehotel.com.br served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Juazeiro Residence Hotel is a Portuguese-language hospitality website presenting accommodation, breakfast, hotel services, local event information, contact channels, and an online pre-reservation form for stays in Juazeiro do Norte, Brazil.

Scam/Impersonation Risk

The site presents a conventional hotel-booking model and its pages show no login form, credential-collection mechanism, cryptocurrency feature, brand-impersonation indicator, or other overt phishing pattern. However, this benign page presentation is materially outweighed by confirmed external threat detections and a blacklist status from two independent sources. The available evidence does not establish an identity contradiction or confirmed impersonation, but the external detections create a critical risk condition for credentials, payments, and other sensitive interactions.

EVIDENCE

- The homepage describes hotel rooms, breakfast, services, and a pre-reservation process in which availability is checked and confirmed by attendants.
- External reputation telemetry recorded 15 malicious detections, with Fortinet and Sophos among the flagged vendors.
- The domain was registered on 2021-01-20 and is recorded as 5.58 years old, with expiration on 2027-01-20.
- Historical records show 15 archive snapshots spanning 2017–2025, with 9 years tracked.

Regulatory Verification Notes

The site's apparent business identity is a local hotel, but independent connection to a verified real-world operator remains unconfirmed. The supplied pages do not present a license claim, registration number, or identifiable regulatory authority; for a hotel, this is a transparency and verification gap rather than standalone proof of fraud. The absence of a matching third-party broker profile provides no affirmative regulatory assurance. The domain's multi-year registration and valid transport encryption are supportive technical facts, but neither establishes operator identity or authorization.

EVIDENCE

- The homepage identifies the business as Juazeiro Residence Hotel and provides accommodation, contact, and reservation content.
- Hosting is recorded on AS31898, ORACLE-BMC-31898 / Oracle Corporation, US.
- The site uses a DV TLS certificate issued by YR2, valid to 2026-10-29T03:28:20+00:00.
- No license authority or license number is presented in the supplied business-model evidence.

What to Verify Next

Before any reservation payment or submission of sensitive information, the hotel's existence, booking availability, payment instructions, and refund conditions should be confirmed through an independently sourced telephone number or offline channel rather than relying solely on the website. Any applicable local tourism, accommodation, or business registration should be checked with the relevant official registry. Payment should use a method providing documented consumer protection, and transaction records should be retained.

EVIDENCE

- The homepage states that reservations require attendant confirmation, creating an opportunity for independent confirmation before payment.
- The contact and reservation pages provide telephone-based contact and assisted booking functions.
- The supplied pages do not show a license number or licensing authority, so applicable registration should be independently checked.
- The reservation form is described as a pre-reservation mechanism rather than a dedicated payment or account-login interface.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. The site's ordinary hotel presentation does not resolve the material external contradiction, and the apparent business identity should not be treated as independently verified.

Infrastructure Integrity

The site resolves directly to Oracle Corporation hosting infrastructure, with no detected CDN or WAF layer and one likely origin address. This provides no meaningful protective edge layer to offset the external reputation concern.

Closing Assessment

A prospective customer should suspend credential submission and payment activity until the hotel and booking details have been independently confirmed through trusted, offline channels and any transaction can be made with appropriate payment protection.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk The public registration record for this domain is incomplete. Registration and ownership rule:KF_WHOIS_INCOMPLETE
02 Sensitive Interaction Risk - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor. Analysis engine signal:direct_threat - The structure of the page changed sharply while it was loading. Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it. External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of juazeiroresidencehotel.com.br.

- The request stayed on juazeiroresidencehotel.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2027-01-20. NOTED
- The earliest public archive of this site is from 2017-03-19. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about juazeiroresidencehotel.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
