

Is jusitex.com legit? TrustSniffer's high-trust assessment: 100/100

jusitex.com

Verdict

100

OUT OF 100

HIGH TRUST

jusitex.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

JusiTex Apparels Mfg. is a Bangladesh-based custom garments manufacturer offering full-package clothing production (knit and woven items, headwear, uniforms), detailing capacity, lead times, QC processes, shipping terms, and contact methods for B2B clients.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

JusiTex Apparels Mfg. is a Bangladesh-based B2B clothing manufacturer website presenting custom garment production services for brands and wholesalers, with an apparent business model centered on design, manufacture, shipment, and commercial order fulfillment.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent manufacturer identity and business purpose, while the available checks found no phishing, impersonation, malicious, or blacklist indicators. Its established domain continuity and consistent historical presence support an apparently legitimate site, although the real-world operator identity remains likely rather than independently verified.

EVIDENCE

- The domain was registered through NameSilo, LLC on 2013-03-25 and is 13.41 years old.
- The domain has 71 archive snapshots spanning 2013–2025, covering 13 tracked years.
- The homepage is categorized as a business/manufacturer site and contains no login form, hidden sensitive form, wallet connection, or detected brand-impersonation indicator.

Regulatory Verification Notes

The reviewed pages describe JusiTex Apparels Mfg. as a Bangladesh-based factory providing full-package production, including design and sampling, knitwear and woven garments, headwear, uniforms, quality-control processes, lead times, and FOB/CIF/CFR shipment arrangements. The site does not present a licensing or registration number in the reviewed content; for this commercial manufacturing model, that is a transparency item requiring ordinary business verification rather than evidence of a scam. No broker-dataset match was identified, and the site's Facebook, LinkedIn, Instagram, and YouTube links provide supporting social-presence signals without independently proving the operator's legal identity.

EVIDENCE

- The homepage and factory-profile content provide detailed descriptions of production capacity, sampling, quality control, lead times, and order fulfillment.
- The site is served from AS31898, identified as ORACLE-BMC-31898 / Oracle Corporation, US.
- The site's TLS certificate is issued by YR1 at DV validation level and is valid through 2026-11-02.
- The About Us and contact-related pages identify the business as JusiTex Apparels Mfg. and provide B2B contact channels.

What to Verify Next

Before placing an order or submitting credentials or payment information, the prospective counterparty should independently confirm the manufacturer's registered business identity and any applicable Bangladesh business or export documentation through relevant official records. The commercial counterparty should also review the site's payment procedure, shipment terms, inspection arrangements, cancellation or remedy provisions, and available payment protections, and confirm the official contact channels through an independently obtained business source.

EVIDENCE

- The Business Terms and Payment Procedure pages set out the commercial process that should be matched against the proposed quotation or contract.
- The Working Process, Quality Controlling, Lead Time, and Sampling Policy pages provide operational claims suitable for documentary confirmation.
- The contact page includes a contact-inquiry form rather than a password or account-credential form.

Summary Verdict

The overall posture is **high trust and low risk**. Available evidence is consistent with an established, apparently legitimate commercial website, supported by substantive business content, stable technical behavior, domain

continuity, and the absence of contradictory risk signals. This classification does not independently prove the real-world operator's identity.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and the observed address was a CDN edge address rather than an identified origin candidate. This provides a meaningful mitigation against direct infrastructure exposure, but it is a protective control rather than proof of business legitimacy.

Closing Assessment

Ordinary commercial engagement is proportionate, provided that independent merchant-identity, contractual, and payment-protection checks are completed before credentials or funds are committed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of jusitex.com.

- The request stayed on jusitex.com. It was not redirected to another domain. CLEAR
- Registration is published under NameSilo, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-25. NOTED
- The earliest public archive of this site is from 2013-04-13. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about jusitex.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
