- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Juvo Crédito is a Brazilian personal-lending website presenting mobile-phone-secured loans, online applications, repayment information, customer support, and consumer fraud warnings.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, technical behavior, and external reputation signals. The homepage describes loans of R\$700–R\$4,500 secured by a borrower's mobile phone, explicitly states that no advance deposit is required, and identifies a banking-correspondent relationship with BMP MoneyPlus. It also publishes fraud warnings and official contact numbers, while technical testing found no phishing forms, brand impersonation, hidden sensitive forms, wallet activity, cloaking, or suspicious scripts.

- The homepage presents the Juvo Crédito lending model, mobile-phone collateral, loan amounts, repayment terms, testimonials, and fraud warnings.
- The homepage states that Juvo operates as a banking correspondent for BMP MoneyPlus and does not require advance deposits.
- External reputation checks recorded zero malicious and zero suspicious detections, with no impersonation or phishing indicators identified.

Regulatory Verification Notes

The site provides a coherent financial-services identity and identifies its relationship with BMP MoneyPlus. No specific license number or independently verifiable registration reference is stated in the supplied site content, so regulatory status should be confirmed separately as a transparency matter rather than treated as evidence of deception. The available third-party broker context did not produce a matching warning.

- The site's legal and informational content identifies Juvo Crédito and describes its banking-correspondent relationship with BMP MoneyPlus.
- The site presents personal lending and interest-bearing repayment terms but does not state a license number in the supplied content.
- The domain was registered on 2021-10-18 and is approximately 4.79 years old.
- The site has 32 archive snapshots spanning 2021–2026, with six years tracked.
- It is hosted on AS16509, Amazon.com, Inc.; its TLS certificate is issued by Amazon RSA 2048 M04, uses DV validation, and is valid through 2026-10-02.

What to Verify Next

Before executing a loan agreement, the prospective borrower should confirm the stated BMP MoneyPlus relationship and any applicable lending authorization through an independent official registry, review the interest and repayment terms, and confirm official support channels through an independently sourced contact route.

- The homepage states the BMP MoneyPlus relationship and the absence of advance deposits.
- The lending pages describe mobile-phone collateral, monthly repayment, and interest charges.
- The contact and fraud-warning content provides the basis for independently confirming support channels.

Summary Verdict

The website presents as a legitimate, established, high-trust financial-services entity with clean reputation signals, coherent business content, and no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is served through Amazon infrastructure associated with content-delivery services and uses a valid mainstream TLS certificate. This provides a meaningful protective infrastructure signal, although hosting protection alone does not establish legitimacy.

Closing Assessment

Normal account access and standard use are appropriate, with ordinary financial due diligence completed before accepting contractual loan obligations.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of juvocredito.com.br.

- The request stayed on juvocredito.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-11.org, across 4 name servers. NOTED
- The registration is paid up to 2027-10-18. CLEAR
- The earliest public archive of this site is from 2021-12-10. CLEAR

- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about juvocredito.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
