

Is kabuyoho.jp legit? TrustSniffer's high-trust assessment: 94/100

kabuyoho.jp

Verdict

94

OUT OF 100

HIGH TRUST

kabuyoho.jp appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 70%.

What this site appears to be

株予報Pro is a Japanese stock-market information portal operated by IFIS Japan, offering market news, company financial data, analyst estimates, stock rankings, disclosures, signals, and AI-generated analysis summaries. The page includes standard financial disclaimers, warnings about fraudulent impersonation sites, and an extensive advertising consent interface.

Evidence status and limitations

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

株予報Pro is an established Japanese financial-information portal operated by IFIS Japan, presenting stock prices, company financial data, market news, analyst forecasts, rankings, disclosures, trading signals, and AI-assisted analysis for investment research.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent financial-news and market-data purpose, with no phishing indicators, sensitive login form, wallet interaction, or deceptive transaction flow identified. The site's published fraud warnings are consistent with an established information service rather than evidence of impersonation. No confirmed malicious or blacklist finding was identified in the available reputation checks.

- The homepage identifies the service as a Japanese stock, price, and corporate-performance information portal.
- The homepage contains substantive market reporting, earnings updates, analyst estimates, rankings, disclosures, and investment disclaimers.
- The domain was registered in 2015 and is approximately 10.94 years old.
- The archive records 103 snapshots spanning 2019–2026, with eight years tracked.

Regulatory Verification Notes

The site functions as an informational investment-research portal rather than a deposit-taking or execution service. Its pages contain financial disclaimers, but the available content does not present a license number or specific regulatory authorization; this is a transparency point for verification, not evidence of misconduct. The available third-party context contains no broker match, while the site's established content and clean reputation support its identity as a market-information provider.

- The homepage presents financial information, forecasts, rankings, and research content rather than direct investment-deposit or transaction services.
- The site's hosting resolves to AS16509, Amazon.com, Inc., US.
- The TLS certificate is issued by GlobalSign GCC R3 DV TLS CA 2020, uses DV validation, and is valid through 2027-03-01.
- The site's transport encryption and established domain infrastructure are consistent with a maintained public-facing service.

What to Verify Next

For regulated use cases, the applicable financial-information, advisory, or publishing status should be confirmed through the relevant Japanese registry or the operator's official corporate disclosures. Official support and contact channels should also be confirmed through an independent source before resolving account or billing issues.

- The homepage describes the service as market information and investment research.
- The available pages include financial disclaimers and advertising-consent disclosures.
- No license number or regulated-service claim is presented in the supplied site content.

Summary Verdict

The website presents a high-confidence legitimate and established profile with a coherent business purpose, substantial editorial substance, long-running presence, and no observed impersonation or phishing contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by AWS CloudFront CDN/WAF infrastructure, with observed addresses serving as CDN edge servers and no origin candidate identified. This reduces direct exposure of the underlying host and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

Closing Assessment

Standard use is appropriate, with regulatory-status confirmation reserved for any engagement that depends on licensed financial advice, execution, or other regulated services.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of kabuyoho.jp.

- The request stayed on kabuyoho.jp. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-47.org, across 4 name servers. NOTED
- The registration is paid up to 2026-08-31. NOTED
- The earliest public archive of this site is from 2019-05-08. CLEAR

- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kabuyoho.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
