Full analysis

Overview

Kappa Argentina is an established Spanish-language online retail storefront offering Kappa sportswear, footwear, accessories, and football-club merchandise for men, women, and children, supported by consumer promotions, installment payments, shipping offers, customer service, and newsletter marketing.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent branded ecommerce model, with no detected phishing, credential-harvesting, malicious behavior, or brand-impersonation indicators. External reputation checks found no malicious or suspicious classification, and the domain has a long-established registration history.

EVIDENCE

- Domain registration: 2013-08-20; age 12.96 years.
- The archive records 77 snapshots spanning 2022–2026, across 5 tracked years.
- The homepage contains no login form, hidden sensitive form, or untrusted form destination.
- The homepage identifies the business as “Kappa Argentina | Sitio Oficial Ropa, calzado y accesorios deportivos.”

Regulatory Verification Notes

The evidenced business model is conventional consumer retail rather than a financial or investment service. The supplied page content contains no licensing claim or license number; this is a limited disclosure note, not evidence of deception. The registration record identifies nicar as registrar and NAMEACTION CHILE SA as owner, providing concrete administrative identity information.

EVIDENCE

- Registered through nicar, with creation date 2013-08-20 and expiration date 2027-06-04.
- TLS certificate issued by YE1, using DV validation, valid to 2026-09-17.
- The homepage provides product categories, pricing promotions, installment information, shipping offers, customer-service links, and newsletter signup.
- The site is included within the global top-million traffic range.

What to Verify Next

For formal procurement or regulated onboarding, confirm the seller's current corporate, returns, payment, and customer-service details through the site's published service and legal channels, with independent confirmation where required.

EVIDENCE

- The homepage exposes customer-service information and consumer purchasing terms through its storefront navigation.
- The only observed form is a newsletter email field; no sensitive account or credential form was detected.
- The site's ecommerce classification is supported by its product catalogue, checkout-oriented promotions, and consumer shipping information.

Summary Verdict

The website presents a legitimate, established, and trustworthy posture with strong convergence across its identity, content, technical, historical, and reputation signals. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF infrastructure. Observed traffic was served through Cloudflare edge addresses, including 23.227.38.65 and 2620:127:f00f:5:: on AS13335; the origin server was not observable in this analysis. This reduces direct origin exposure and is a mitigating infrastructure signal, not independent proof of legitimacy.

Closing Assessment

Standard browsing, account access, and ordinary purchasing are appropriate, subject to routine commercial checks proportionate to transaction value.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100

Identity verification confidence	50%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kappastore.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
