

Is kashfull.com safe? TrustSniffer's moderate-trust assessment: 70/100

kashfull.com

Verdict

70

OUT OF 100

MODERATE TRUST

kashfull.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Not Scam

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Local Bangladeshi online furniture store listing products with prices, contact email/phone, and cart/checkout flows. No evident high-risk fraud or crypto/investment claims in the provided content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Kashfull.com is a Bangladesh-focused online furniture retailer presenting catalogued home goods, product prices, customer contact details, account functions, and cart/checkout facilities for direct consumer purchases.

Scam/Impersonation Risk

No contradictions were observed between the available site content, technical behavior, and external reputation signals. The homepage presents a conventional furniture catalogue with items such as shoe racks, reading tables, almirahs, wardrobes, and dining furniture, each paired with prices and standard “Add to cart” and checkout functions; it does not promote cryptocurrency, investment returns, gambling, or other high-risk financial mechanisms. The site includes account and checkout functionality, but the observed behavior showed no hidden forms, external password destinations, wallet activity, cloaking, or suspicious scripts. The available evidence therefore supports an apparently legitimate retail presentation, while the real-world operator remains independently unverified.

EVIDENCE

- The homepage displays furniture categories, priced products, cart controls, and standard retail purchasing actions.
- Behavioral testing recorded two successful runs, zero external XHR requests, zero hidden forms, zero wallet-provider or wallet-drainer activity, and no cloaking.
- Domain registration: 2019-05-12 (~7.28 years old), with registration through PDR Ltd. d/b/a PublicDomainRegistry.com.
- Web-archive coverage records 6 snapshots spanning 2019–2025, with 8 years tracked.

Regulatory Verification Notes

The site operates as an ordinary online retailer rather than presenting a regulated financial service. Its available content provides a Bangladesh bazar address, telephone contact, and customer-support channel, but the supplied pages do not establish a verifiable legal entity or display a licensing or registration number. This is a transparency item for commercial due diligence, not evidence of deception. Available external checks recorded no malicious-site result, no active threat finding, and zero abuse reports; coverage was partial, so these signals are supportive rather than comprehensive. The site's domain is established and its transport security is valid, although the certificate uses domain validation rather than organization validation.

EVIDENCE

- The homepage identifies the business model as direct online retail and presents a local physical address and telephone contact.
- Hosted on AS204800 (WHG-SGP - WHG Hosting Services Ltd, GB).
- TLS certificate issued by YR1 (DV), valid to 2026-11-12T09:45:25+00:00.
- External reputation records show 0 abuse reports and no active malicious-site or phishing finding in the available checks.

What to Verify Next

Before a high-value purchase or submission of sensitive account information, an institution or consumer should independently confirm the seller's legal trading identity and the listed physical location, review the applicable delivery, return, refund, and warranty terms, and confirm that the intended payment method provides transaction dispute and recovery protections. Licensing or registration should be checked only if the seller later claims to provide a regulated service. Official contact channels should also be confirmed through an independent route before relying on them for payment or account recovery.

EVIDENCE

- The storefront provides a checkout workflow, making payment, delivery, and refund terms material to transaction due diligence.
- The available identity and legal disclosures are insufficient to independently verify the operating entity.
- The site's account functionality makes independent confirmation of account-recovery and support procedures appropriate.

Summary Verdict

The overall posture is **moderate trust** and the evidence is consistent with an established, apparently legitimate furniture e-commerce website. No scam, phishing, impersonation, or other direct contradiction was identified, but the operator’s real-world identity is not independently verified and the available evidence does not support treating the site as a fully established corporate counterparty.

Infrastructure Integrity

The site resolves to a single directly hosted address rather than a detected CDN or WAF edge layer. The hosting infrastructure is provided by WHG-SGP / WHG Hosting Services Ltd, and the direct origin exposure is a routine infrastructure characteristic that offers less intermediary protection but does not, by itself, indicate maliciousness.

Closing Assessment

Routine browsing and ordinary retail consideration are proportionate to the available evidence; higher-value transactions should proceed only after the seller, transaction terms, and payment-recovery arrangements have been independently confirmed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE

02 Dynamic Interaction Caution

- The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.

Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of kashfull.com.

- The request stayed on kashfull.com. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by supercp.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-12. NOTED
- The earliest public archive of this site is from 2018-08-07. CLEAR
- It is hosted on WHG-SGP, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kashfull.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
