

Is kasturlari.com legit? TrustSniffer's high-trust assessment: 100/100

kasturlari.com

Verdict

100

OUT OF 100

HIGH TRUST

kasturlari.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Regional Turkish travel agency site listing day trips and multi-day packages around Kaş (boat tours, safaris, diving, paragliding, hiking). Shows pricing, contact phone numbers and emails, and encourages bookings; appears to be a normal commerce site for tourism services.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://www.kasturlari.com/>

What kasturlari.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

What appears to be a regional Turkish travel-agency website, Kaş Turları presents visitors with day trips and multi-day packages around Kaş, including boat tours, Kekova excursions, jeep safaris, diving, sea kayaking, paragliding, hiking, island trips, and private boat rentals, with prices and booking contact details supporting a conventional tourism-commerce model.

Scam/Impersonation Risk

No contradictions were observed: the available evidence identifies no phishing, impersonation, confirmed blacklist, malicious-content, or conflicting-identity signal. The homepage presents a coherent tourism offering rather than credential harvesting or an implausible financial proposition, and observed browsing showed no login form, hidden form, wallet connection, clipboard manipulation, or drainer behavior. One abuse report is associated with the hosting IP, but it is attributed to shared data-centre infrastructure, carries zero confidence, and is therefore not evidence that the website itself was abusive.

EVIDENCE

- The homepage lists Kaş boat tours, Kekova trips, Saklıkent jeep safaris, diving, kayaking, paragliding, hiking, Meis excursions, and boat rentals; no page-level red flags were recorded.
- The homepage's observed interaction surface contained no login form, sensitive form, hidden form, wallet connection, or external password submission.
- Domain registration evidence records creation on 2017-07-02, with an age of 9.14 years and expiry on 2027-07-02.
- Historical records show 86 archive snapshots spanning 2018–2026, covering 9 tracked years.

Regulatory Verification Notes

The site appears consistent with an established regional travel business, but the real-world operator identity is not independently verified. The available pages provide business offerings, prices, telephone numbers, and booking contacts; however, the supplied content does not show a claimed license or registration number, so licensing and legal-entity disclosure remain matters for ordinary merchant verification rather than indicators of a scam. A third-party broker dataset produced no name match. The single hosting-IP abuse report is a soft reputational signal concerning shared infrastructure, not a regulatory or legal finding.

EVIDENCE

- The homepage provides tour descriptions, prices, telephone numbers, and booking contact details but does not state a license authority or license number in the supplied content.
- The domain is registered through Atak Domain; the registrant fields identify "Domain Administrator" and "Registrant of kasturlari.com."
- The site is hosted on AS207279, MARKAHOST-TELEKOMUNIKASYON-LIMITED-SIRKETI, Turkey.
- The site uses a valid DV TLS certificate issued by YR2, valid through 2026-09-30.

What to Verify Next

Before a credential or payment interaction, an interested customer should independently confirm the operating merchant's legal name and tourism authorization with the relevant Turkish registry or licensing authority, obtain the applicable cancellation and refund terms from the booking or terms materials, and confirm payment-protection arrangements and official contact channels through an independent route. For higher-value bookings, the booking confirmation should identify the contracting merchant and the service provider responsible for delivery.

EVIDENCE

- The homepage identifies the commercial services and booking route but does not, in the supplied material, establish the operator's independently verified legal identity.
- The listed products include both day trips and multi-day packages, making cancellation, deposit, and service-delivery terms relevant to the transaction.
- The site's contact page or booking communications should be used to obtain merchant and payment details before funds are committed.

Summary Verdict

The overall posture is that of an **apparently legitimate, established, low-risk website**, and the evidence supports normal browsing and ordinary tourism-booking consideration. This conclusion is evidence-consistent rather than proof of the operator’s real-world identity, which remains independently unverified.

Infrastructure Integrity

The site resolves to a single apparent origin IP, 193.38.34.5, without a detected CDN or WAF layer; this provides less edge-layer shielding than a CDN-fronted deployment but does not, on the supplied evidence, indicate malicious infrastructure. The hosting arrangement is technically identifiable and the site’s transport encryption is valid, providing a basic integrity control for connections.

Closing Assessment

Proceed with ordinary independent merchant-identity, cancellation-policy, and payment-protection checks before submitting credentials or making a payment, with additional confirmation appropriate for costly or multi-day bookings.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 193.38.34.5 (Markahost Telekomunikasyon Ve Ticaret Limited Sirketi, Data Center/Web Hosting/Transit), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of kasturlari.com.

- The request stayed on kasturlari.com. It was not redirected to another domain. CLEAR
- Registration is published under Atak Domain. CLEAR
- DNS for this domain is served by markahost.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-02. NOTED
- The earliest public archive of this site is from 2018-02-23. CLEAR
- It is hosted on MARKAHOST-TELEKOMUNIKASYON-LIMITED-SIRKETI, from a server in TR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kasturlari.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
