

Is katino.lt legit? TrustSniffer's high-trust assessment: 100/100

katino.lt

Verdict

100

OUT OF 100

HIGH TRUST

katino.lt appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Local Lithuanian family farm ecommerce site selling natural cold-pressed oils, nut flours and related products. Provides contact phone and email, physical address, shipping details and payment options (including pay-on-delivery). No obvious suspicious or financial-yield claims.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Lithuanian family-farm online shop presenting cold-pressed oils, nut flours, seeds, protein products, gifts, recipes, and farm news, with the apparent business model of selling natural food products directly to customers and arranging delivery or collection-related payment options.

Scam/Impersonation Risk

No scam, phishing, impersonation, or identity-contradiction signals were observed. The site presents a coherent local-farm use case, while the available page and behavioral evidence shows no login form, hidden sensitive form, wallet connection, credential-harvesting destination, or suspicious script activity. External reputation checks also returned no malicious or suspicious detections, supporting a low scam and impersonation risk assessment.

EVIDENCE

- Domain registration record: registered 2019-11-14; recorded age 6.78 years; expiry 2026-11-15.
- Web archive: 39 snapshots spanning 2017–2026, with 10 years tracked.
- Browser behavior: two successful runs, no cloaking, no hidden forms, no wallet-drainer activity, and no suspicious inline scripts.
- External reputation: 0 malicious detections, 0 suspicious detections, and 0 abuse reports.

Regulatory Verification Notes

The site appears to operate as an ordinary food-commerce storefront rather than a financial or otherwise clearly regulated service. Its pages provide a farm name and location, a telephone contact, an email contact, shipping information, and payment arrangements. No license or registration number is claimed in the available content; for this business type, that is a transparency and verification point rather than evidence of a scam. The operator's real-world identity remains independently unverified, so the on-site identity presentation should be treated as apparently legitimate rather than proven. A third-party broker-reputation dataset produced no matching record, which is contextual support only and is not a licensing determination.

EVIDENCE

- Homepage: identifies “Katinų ūkis” in Griūčių village and describes cold mechanical pressing and production of nut flours.
- Homepage and contact content: provide a Lithuanian telephone number, email contact, and physical farm location.
- Hosting infrastructure: served on AS212531, Interneto-vizija - UAB _Interneto vizija_, LT.
- Transport encryption: TLS certificate issued by PerfectSSL at DV validation level, valid to 2026-11-18 23:59:59 +00:00.

What to Verify Next

Before credential or payment interactions, an independent check should connect the farm name, physical address, and telephone details to a current merchant or business record. The applicable Lithuanian food-commerce, consumer-protection, and tax disclosures should also be checked where relevant, including any required registration details and the site's returns and complaint process. The checkout should be completed only through the intended payment flow, with order confirmation retained and payment-protection terms reviewed; pay-on-delivery, where available, can reduce upfront payment exposure.

EVIDENCE

- Homepage: supplies the merchant name and location needed for an independent identity comparison.
- Contact and delivery pages: provide the operational details needed to validate customer-service and fulfilment arrangements.
- Checkout flow: includes a purchase form and documented payment options, making confirmation and payment-protection checks directly applicable.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate low-risk ecommerce website. No contradictory signals were observed, and the site’s content, behavior, historical continuity, transport security, and external reputation converge on a high-trust posture, while independent operator identity verification remains incomplete.

Infrastructure Integrity

The site resolves to a single likely origin address, 79.98.26.26, hosted in Lithuania by Interneto-vizija - UAB _Interneto vizija_ on AS212531. No CDN or WAF was identified, so the infrastructure appears to use direct hosting rather than an edge-protection service; this is an architectural characteristic, not evidence of maliciousness.

Closing Assessment

Ordinary browsing and routine transactions are proportionate to the assessed posture, subject to the independent merchant-identity, returns, and payment-protection checks above before credentials or payment details are submitted.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of katino.lt.

- The request stayed on katino.lt. It was not redirected to another domain. CLEAR
- The registration is paid up to 2026-11-15. NOTED
- The earliest public archive of this site is from 2017-04-21. CLEAR
- It is hosted on Interneto-vizija, from a server in LT. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about katino.lt at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
