Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

The website is a Spanish-language Shopify storefront for Kawasaki Capital, presenting new Kawasaki motorcycles, equipment, accessories, promotional pricing, financing options, nationwide delivery, workshop appointments, and dealership events to customers in Mexico.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators, or confirmed malicious reputation signals were observed. The Kawasaki-focused branding is consistent across the product catalogue and dealership-service content, while the physical location, telephone contact, and established social channels form a coherent commercial identity. The domain also has a multi-year registration history, supporting the assessment that this is an established dealership website rather than a recently created imitation.

- The homepage consistently identifies the business as “Kawasaki Capital” and presents a detailed catalogue organized around Kawasaki motorcycle families.
- The contact and homepage content provides a Mexico City location, telephone contact, and links to Facebook, Instagram, WhatsApp, and Google Maps.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no phishing, impersonation, or external threat-list finding.
- The domain registration record shows registration in 2021 (~5.11 years old), through AKKY ONLINE SOLUTIONS, S.A. DE C.V., with expiry on 2027-06-26.

Regulatory Verification Notes

The site presents an ordinary motorcycle-sales and servicing business rather than a regulated investment or deposit-taking operation. Privacy-policy links are available, but the supplied page evidence does not establish the precise legal entity operating the dealership or provide detailed regulatory disclosures for its advertised payment and credit arrangements. This is a limited commercial-transparency point, not evidence of fraud or an identity conflict.

- The homepage advertises payment and credit options alongside motorcycle sales but makes no claim of holding a financial-services licence.
- The site navigation includes “Aviso de Privacidad” and “Política de privacidad,” providing identifiable routes to privacy disclosures.
- The homepage identifies the storefront as a motorcycle dealership and attributes listed products to Kawasaki Capital.

- The available third-party broker dataset contains no match for the business; this is neutral reputational context and not a licensing determination.

What to Verify Next

Before a high-value vehicle purchase, the prospective customer should confirm the dealership’s authorized status through Kawasaki’s official dealer channels, reconcile the stated premises and telephone number through an independent source, and obtain written financing, delivery, warranty, cancellation, and refund terms. Payment instructions should be confirmed directly with the dealership before funds are transferred.

- The homepage offers models including the Ninja ZX-10R, Ninja 300 ABS, Ninja 500 SE, and KX250, making manufacturer-dealer authorization directly relevant.
- Product listings display MXN sale and regular prices, indicating potentially material purchase commitments.
- The site offers nationwide shipping, which makes written delivery, acceptance, and return conditions relevant before remote purchase.
- The workshop and appointment pages indicate post-sale servicing, supporting verification of warranty coverage and service responsibility.

Summary Verdict

The site has a high-trust, legitimate, and established commercial posture. Its identity, substantive dealership content, operational footprint, technical security, and clean external reputation converge without contradictory indicators. Normal interaction, including account login, checkout, and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with the observed address belonging to an edge server rather than an exposed origin. This reduces direct origin exposure and supports service resilience, although protective infrastructure is not independently proof of business legitimacy. Transport encryption is valid and uses domain validation.

- The hosting infrastructure serves the site from AS13335 (Cloudflare, Inc.); the observed edge address is 23.227.38.65 in Canada.
- The TLS certificate was issued by YE1 with DV validation and is valid until 2026-09-03.
- All observed addresses were CDN edge infrastructure, with no origin-server candidate identified.

Closing Assessment

Prospective customers may use the site normally, while applying standard safeguards appropriate to any substantial vehicle purchase, including independent confirmation of transaction details and retention of written contractual records.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
--------	--------

Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of kawasakicapital.com.mx.

- The request stayed on kawasakicapital.com.mx. It was not redirected to another domain. [CLEAR](#)
- Registration is published under AKKY ONLINE SOLUTIONS, S.A. DE C.V.. [CLEAR](#)
- DNS for this domain is served by usvx.net, across 3 name servers. [NOTED](#)
- The registration is paid up to 2027-06-26. [NOTED](#)
- It is hosted on CLOUDFLARENET, from a server in CA. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kawasakicapital.com.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
