

Is kievskaya22.ru a scam? TrustSniffer's high-risk assessment: 0/100

kievskaya22.ru

Verdict

0

OUT OF 100

CRITICAL RISK

kievskaya22.ru shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for a Moscow-based training center for tour guides and interpreters (НОЧУ ДПО "Центр подготовки туристических кадров"). Provides course listings, history, contact phone numbers, address (Москва, ул. Киевская 22), and site creation credit (ITB-company, 2012). Content is informational and oriented to recruitment/education rather than financial transactions.

Evidence status and limitations

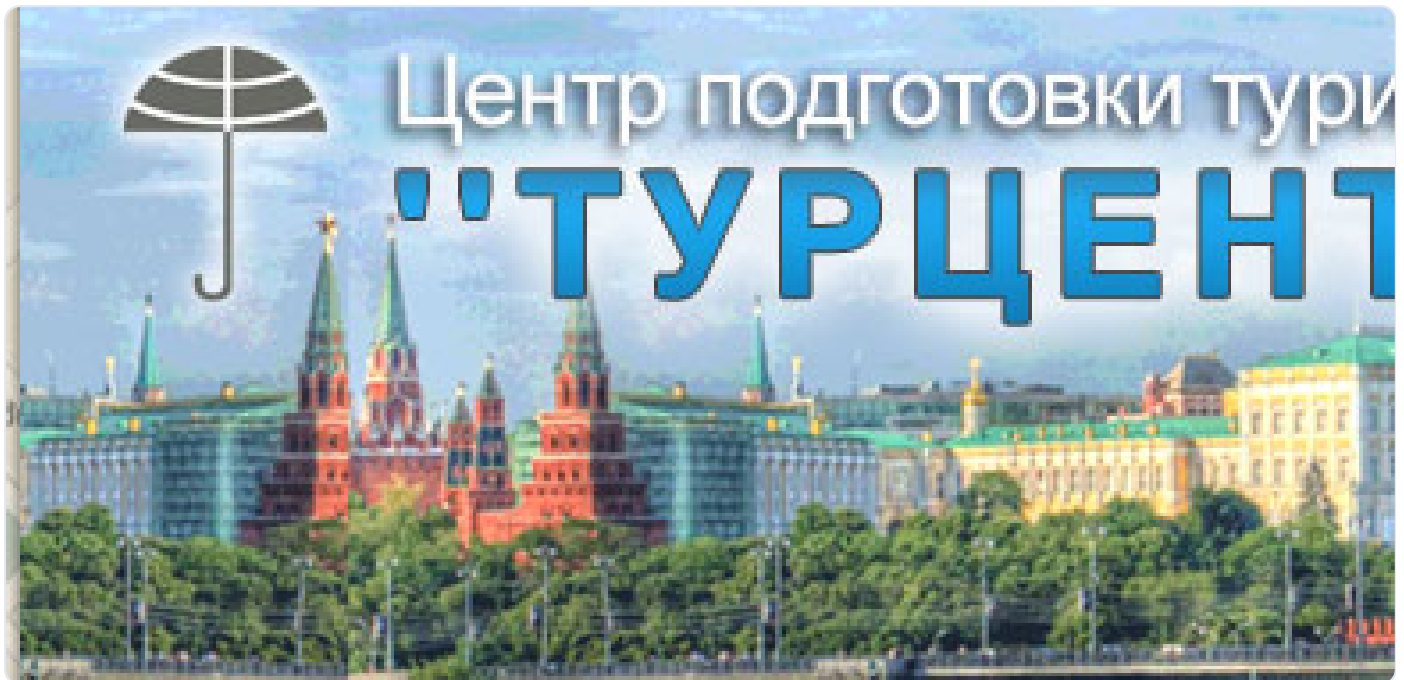

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://kievskaya22.ru/>

What kievskaya22.ru served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2009.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This is a Russian-language informational website for a Moscow-based training center offering courses for tour guides and interpreter-guides, professional development, excursions, workshops, and course applications; its apparent business model is education and related training services.

Scam/Impersonation Risk

The website's content is consistent with an educational institution and the captured pages show no login form, hidden sensitive form, wallet connection, or other obvious phishing mechanism. However, this benign presentation is outweighed by confirmed external threat-reputation contradictions: the domain is recorded as blacklisted, with multiple malicious detections, including a Tier-1 security-provider detection. Accordingly, the site should be treated as unsuitable for credential submission, account login, payment, or other sensitive interaction until the reputation issue is independently resolved. The historical record does not indicate suspicious repurposing, but that positive provenance signal does not neutralize the current external detections.

EVIDENCE

- External reputation assessment recorded 8 malicious detections and 0 suspicious detections; blacklist status was confirmed.
- Domain registration record: created 2020-06-16T14:08:52Z, approximately 6.18 years old, with RU-CENTER-RU as registrar.
- Web-archive record: 157 snapshots spanning 2009–2026, covering 18 tracked years; no suspicious repurpose was identified.
- The homepage capture showed no login form, hidden form, wallet connection, or password-external form.

Regulatory Verification Notes

The homepage and organizational pages identify НОЧУ ДПО “Центр подготовки туристических кадров” and present a Moscow address, telephone numbers, course subjects, teaching information, pricing, and application-related sections. This establishes what the site claims to represent, but the real-world operator identity remains unverified. No license authority or license number is claimed in the supplied site analysis, creating a regulatory-disclosure gap that requires confirmation rather than constituting a standalone finding of fraud. The external broker-reputation dataset contained no matching record, which is neutral context and not a licensing determination.

EVIDENCE

- The homepage identifies НОЧУ ДПО “Центр подготовки туристических кадров” and describes guide and interpreter-guide training.
- The site’s contact and address pages publish “Москва, ул. Киевская 22” and telephone numbers 8-499-249-41-76 and 8-499-249-41-86.
- Hosting infrastructure: AS43882, SOTLINE-AS – SOT LINE Limited Company, RU.
- TLS certificate: issued by YR2, domain validation (DV), valid to 2026-11-09T07:03:10+00:00.

What to Verify Next

The organization’s legal existence and any authorization required for its educational activities should be confirmed through the relevant official registry or an independently obtained institutional record. Contact channels should be validated through an offline or independently sourced route, and any course-payment, enrollment, or refund terms should be reviewed before funds or personal information are provided. Until those checks are complete, interaction should remain limited to passive review of publicly available information.

EVIDENCE

- The organizational, contact, and address pages provide details suitable for independent confirmation.
- The site contains separate sections for “Стоимость,” “Курсы,” “Оставить заявку,” and “Вопросы и ответы,” which should be reviewed together before enrollment.
- The page capture identifies the site creation credit as ITB-company, 2012, providing an additional provenance detail for independent checking.

Summary Verdict

The overall posture is **critical**, with a confirmed external reputation contradiction and insufficient independent identity assurance for sensitive engagement. The site may present a genuine educational service, but the available evidence does not support treating it as trustworthy for credentials, payments, or other consequential interactions.

Infrastructure Integrity

The site resolves directly to a single apparent origin IP, 79.133.175.44, in Russia, hosted by SOTLINE-AS – SOT LINE Limited Company, RU, on AS43882; no CDN or WAF vendor was detected. Valid DV TLS provides transport encryption, but the infrastructure offers no mitigating edge-protection signal capable of offsetting the external reputation concern.

Closing Assessment

Prospective users should defer sensitive interaction until the organization, authorization status, and transaction terms have been independently confirmed; passive reading is the proportionate interim use.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of kievskaya22.ru.

- The request stayed on kievskaya22.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by ru., across 2 name servers. NOTED
- The registration is paid up to 2027-06-16. NOTED
- The earliest public archive of this site is from 2009-08-01. CLEAR
- It is hosted on SOTLINE-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kievskaya22.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
