Full analysis

Overview

Kim Khánh Việt Hùng is a Vietnamese jewelry retailer presenting gold, silver, wedding jewelry, accessories, product pricing, gold-price lookup, consultation, delivery, payment, and after-sales services for ordinary retail commerce.

Scam/Impersonation Risk

No contradictions were observed. The site's business presentation is coherent with jewelry retail, its homepage identifies the business consistently, and the available behavioral evidence shows no phishing, impersonation, hidden sensitive forms, wallet activity, or suspicious external activity. External reputation checks also found no malicious or suspicious detections.

- The homepage identifies "CÔNG TY TNHH KIM KHÁNH - VIỆT HÙNG" and presents a detailed gold and silver product catalogue.
- The site's contact and consultation functionality contains no password or sensitive-data form.
- The domain was established in 2023 (~3.088 years old), with 315 archive snapshots spanning 2023–2026 across 4 tracked years.

Regulatory Verification Notes

The site provides company information, a physical address in Đà Nẵng, telephone contacts, policies, payment and delivery information, and after-sales support. Its commercial model is ordinary jewelry retail rather than a regulated investment or financial-services offering. Licensing or registration details for any regulated activity are not presented in the available content; this is a limited transparency point, not evidence of deception. No adverse broker-reputation match was identified.

- The homepage and company-information content identify the business and its physical location in Đà Nẵng.
- Product pages display gold, silver, wedding-jewelry, and accessory offerings with prices.
- The policies section covers general terms, payment methods, delivery, and related customer-service arrangements.

What to Verify Next

Before a high-value purchase, the prospective customer should confirm the company identity and transaction details through the independently listed telephone or physical-business channels, and retain the applicable invoice, payment record, and delivery documentation.

- The site publishes multiple telephone numbers and consultation contacts.

- The site provides payment, delivery, and after-sales policy pages.
- Social-contact options include Facebook and Zalo.

Summary Verdict

The website has a legitimate, established, trustworthy posture with strong convergence across its business content, operating history, technical stability, and clean external reputation. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to hosting infrastructure operated by SUPERDATA-AS-VN / SUPERDATA-VN in Vietnam, with no CDN or WAF identified. Confirmed technical evidence shows service on AS45544 and a valid DV TLS certificate issued by YE1, expiring on 2026-10-19; the encrypted transport provides a meaningful protective control, although hosting infrastructure alone is not proof of legitimacy.

Closing Assessment

Standard browsing, account interaction, and ordinary retail transactions are appropriate, with normal business-record retention for material purchases.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kimkhanhviethung.vn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
