Full analysis

Overview

Kings Collection Kenya is an established online retail storefront presenting bags, uniforms, clothing, swimming wear, towels, mattress protectors, and related outdoor products for direct purchase in Kenyan shillings.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent physical-goods retail model, with identifiable product categories, visible prices, navigation, and no detected phishing, brand-impersonation, malicious, or deceptive-content indicators. The absence of sensitive login or payment forms in the captured content further supports a conventional ecommerce presentation rather than an abuse-oriented interaction model.

- The homepage lists bags, uniforms, clothing, swimming wear, towels, and outdoor products with prices in Kenyan shillings.
- The domain was registered in 2011 and is approximately 14.69 years old.
- Web archives contain 147 snapshots spanning 2012–2026, covering 15 tracked years.
- External reputation checks recorded zero malicious and zero suspicious detections.

Regulatory Verification Notes

The site appears to operate as a general retail business rather than a financial or otherwise visibly regulated service. The supplied pages do not present a license or registration number, so business-registration and consumer-protection details remain a transparency item for ordinary commercial due diligence. The domain is registered through Cecypo International Limited, and its technical identity is consistent with a long-running retail website.

- The site navigation exposes Home, Shop, FAQs, About Us, and Contact Us pages.
- The domain registrar is Cecypo International Limited.
- Hosted on AS398787 (GoDaddy.com, LLC), United States.
- TLS certificate issued by WE1 using DV validation, valid to 2026-09-14.

What to Verify Next

Before a material purchase, the prospective customer should confirm the seller's legal trading details and applicable Kenyan business requirements through independent records, and confirm delivery, returns, and

payment terms through the site’s published customer-information pages. Contact channels should be confirmed through an independent, offline route where transaction value warrants it.

- The site provides dedicated FAQs, About Us, and Contact Us navigation for customer due diligence.
- The storefront supports product variants, indicating that ordering and fulfilment terms should be checked for the selected item.

Summary Verdict

The website presents as a legitimate, established, and trustworthy ecommerce business with no observed scam or impersonation indicators. Normal interaction, including account access and standard purchasing activity, is appropriate within ordinary commercial safeguards.

Infrastructure Integrity

The site resolves through a single likely origin address without detected CDN edge addresses and is hosted by GoDaddy.com, LLC on AS398787 in the United States. The resolved infrastructure and valid TLS provide a conventional protective baseline, although hosting controls alone are mitigating evidence rather than proof of business legitimacy.

Closing Assessment

Proceed with normal ecommerce use, retaining standard records of product descriptions, payment, delivery, and any customer-service correspondence for material transactions.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kingscollection.co.ke at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
