

Is kiotviet.vn legit? TrustSniffer's high-trust assessment: 100/100

kiotviet.vn

Verdict

100

OUT OF 100

HIGH TRUST

kiotviet.vn appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-04 by automated analysis. Classification confidence 75%.

What this site appears to be

Vietnamese homepage for KiotViet, an established point-of-sale and business-management SaaS serving retailers, restaurants, hospitality operators, and service businesses. It promotes a free trial, industry-specific management tools, online-commerce integrations, accounting, staffing, payments, support resources, and mobile apps, while publishing corporate contact details and a Hanoi office address.

Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

KiotViet is an established Vietnamese subscription-based point-of-sale and business-management software service for retailers, restaurants, hospitality operators, and service businesses, presenting visitors with industry-specific operational tools, a free trial, customer support, and access to existing accounts.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators, or deceptive investment themes were observed. The site's long operating history, substantial traffic footprint, consistent business-software presentation, and clean external threat reputation strongly support the authenticity of the KiotViet service. Normal interaction, including account login and standard use, is appropriate.

- Domain provenance records show registration in 2013 (~12.7 years old).
- Web-archive records contain 297 snapshots spanning 2013-11-13 to 2026-06-07, covering 14 tracked years without evidence of suspicious repurposing.
- The homepage presents a coherent KiotViet identity, corporate contact information, a Hanoi office address, and ordinary free-trial and account-access paths.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no phishing finding, no external threat-list hit, and a global traffic rank of 58,456.

Regulatory Verification Notes

The service is principally operational SaaS rather than an investment or brokerage platform. Its homepage describes sales management, accounting and tax tools, online-commerce integration, employee administration, QR payments, and business-loan connections; the financial functions appear to be ancillary integrations rather than the core business model. No licensing claim, named regulator, or license number was identified in the supplied page content. That is a limited disclosure point relevant to any regulated payment or lending feature, not evidence of fraud or a defect in the broader software service.

- The homepage describes subscription-based software for commerce, staffing, accounting, payments, and hospitality, with loan connectivity presented among the broader business tools.
- The assessed page did not present a claimed regulatory authority or license number for the ancillary financial-service integrations.
- The site is served from AS38732 (CMC Telecom Infrastructure Company, Vietnam); a second observed edge is on AS18403 (FPT Telecom Company, Vietnam).

- The site's transport encryption uses a DV certificate issued by GlobalSign GCC R6 AlphaSSL CA 2025, valid to 2026-11-04.

What to Verify Next

For enterprise onboarding, contracting personnel should reconcile the contracting entity and physical address against procurement documents, confirm applicable service terms and data-processing commitments, and identify the regulated partners responsible for any payment or lending functionality. Official support channels should also be confirmed through independently obtained contractual or onboarding records.

- The homepage publishes corporate contact details and a physical office location suitable for reconciliation against formal documentation.
- Account access is presented through a KiotViet-branded login path, while the captured homepage itself contained no embedded sensitive form or externally submitted password form.
- Observed browser testing found no hidden forms, cloaking, clipboard manipulation, wallet-provider interaction, or suspicious inline scripts.
- The homepage links to established Facebook and YouTube presences that can support independent channel confirmation.

Summary Verdict

KiotViet presents as a legitimate, mature, and trustworthy business-software website. Its identity, historical continuity, content quality, traffic presence, external reputation, and observed browser behavior converge without contradictory indicators, supporting normal account access and standard use with high confidence.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the site, and both observed addresses were edge servers rather than exposed origin infrastructure. This reduces direct origin exposure and provides a meaningful defensive control, although protective hosting is appropriately treated as mitigation rather than independent proof of legitimacy.

Closing Assessment

Prospective users and enterprises may engage with the service normally, applying standard contractual, privacy, access-control, and supplier-onboarding diligence appropriate to a business SaaS platform.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of kiotviet.vn.

- The request stayed on kiotviet.vn. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2013-11-13. CLEAR
- It is hosted on CMCTELECOM-VN, from a server in VN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kiotviet.vn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
