

Is kirsehirdemasaj.xyz a scam? TrustSniffer's high-risk assessment: 0/100

kirsehirdemasaj.xyz

Verdict

0

OUT OF 100

CRITICAL RISK

kirsehirdemasaj.xyz shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 75%.

What this site appears to be

Registrar/parking page indicating the domain kirsehirdemasaj.xyz has expired, with renewal instructions and links to domain auctions and marketplace listings.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

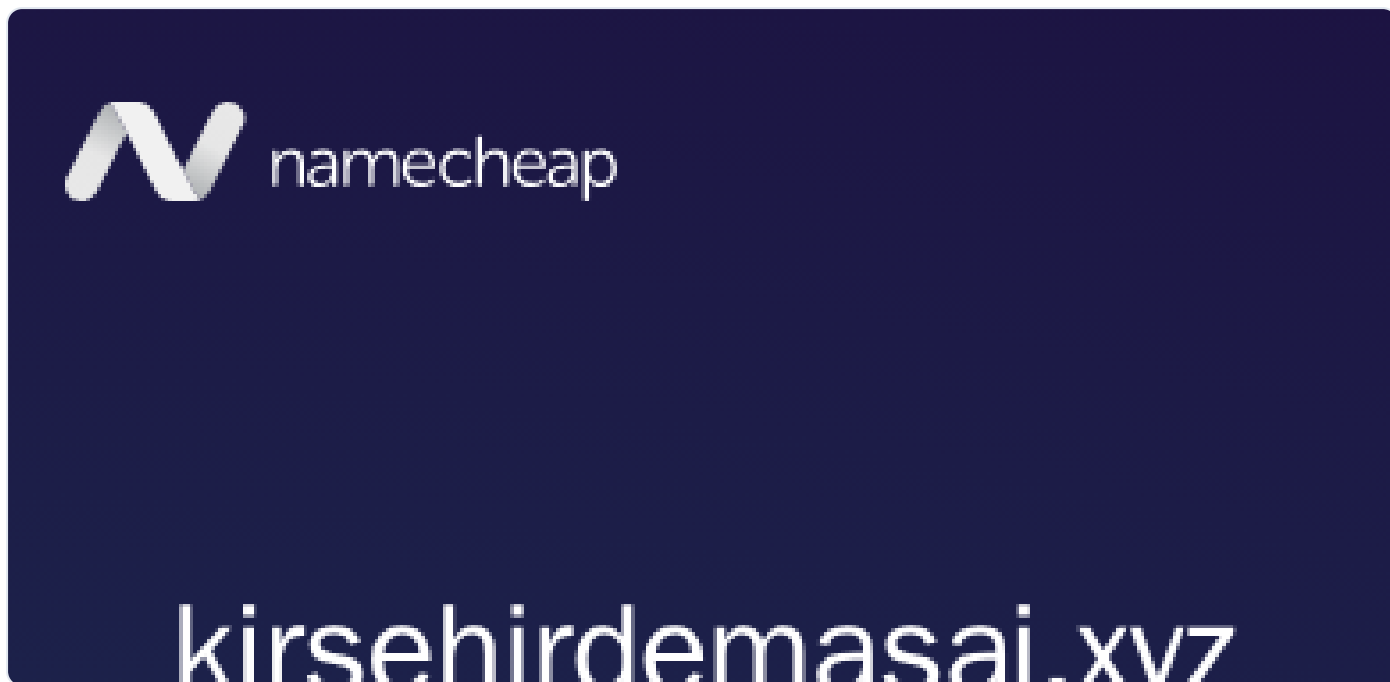

At a glance

The checks that decide most of this verdict.

Malware engines	14 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	0 reports AbuseIPDB; shared hosting inflates this count	NOTED
Domain age	6.1 years old Registered history	CLEAR

The page as captured

<https://kirsehirdemasaj.xyz/>

What kirsehirdemasaj.xyz served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is an expired-domain parking and registrar marketplace page for kirsehirdemasaj.xyz. It informs visitors that the domain registration has expired, provides Namecheap renewal instructions for the former registrant, and promotes unrelated domain auctions and resale listings rather than presenting an active operating business.

Scam/Impersonation Risk

The site presents no active product, service, login flow, or financial offering, and the page itself contains no apparent impersonation branding. However, the domain is subject to a **confirmed blacklist finding**, with 14 malicious detections reported by external security assessments, including Kaspersky and Sophos. This is a material contradiction to the otherwise benign registrar-parking presentation and is the decisive reason sensitive interaction should not be trusted. The real-world operator identity also remains unverified; the page's association with Namecheap describes the registrar or parking mechanism, not necessarily the current operator of the

domain. No additional identity contradiction or confirmed phishing indicator was observed in the supplied page findings.

EVIDENCE

- The homepage states that kirsehirdemasaj.xyz has expired and directs the former registrant to renew it through a Namecheap account.
- External reputation checks recorded 14 malicious detections, with Kaspersky and Sophos among the flagged providers; the domain was also marked blacklisted by two external blacklist sources.
- The site's historical record contains 628 snapshots spanning 2020–2026, covering 7 tracked years, indicating sustained historical capture but not current legitimacy.

Regulatory Verification Notes

The observed content is a registrar and auction notice, not a financial, investment, brokerage, or other regulated-service website. It does not establish a regulated operating entity, licensing status, or current registrant identity. The page's expired-domain status is therefore an important commercial and identity condition: any party presenting this domain as an active business would require separate confirmation through authoritative corporate, regulatory, and registrar records. The absence of a matched broker-reputation record is only neutral contextual information and does not offset the external blacklist finding.

EVIDENCE

- The homepage title identifies the domain as registered at Namecheap, while the page body states that registration has expired.
- The hosting infrastructure is served from AS49981, WorldStream - WorldStream B.V., NL.
- The site's TLS certificate is domain-validated, issued by YE1, and valid until 2026-11-11T06:09:03+00:00.

What to Verify Next

Before any sensitive interaction, independently confirm that the domain has been legitimately re-registered and identify the current registrant through the registrar or another authoritative record. If a future operator claims to provide a regulated service, licensing should be checked directly with the relevant regulator rather than relying on statements made on the domain. Official support or contact channels should be confirmed through an independent route, and any browser or endpoint security warning should be treated as a stop condition pending resolution.

EVIDENCE

- The homepage provides renewal instructions and auction links rather than documentation for an operating business.
- The page contains no sensitive form or login form in the observed capture, so any later request for credentials or payment would represent a change in the site's interaction profile requiring renewed assessment.
- Runtime observation recorded 37 external XHR requests, 21 external posts, and 14 non-whitelisted external network interactions across two successful runs.

Summary Verdict

The overall posture is **critical trust risk**. The benign appearance of an expired-domain parking page does not overcome the confirmed blacklist and malicious-detection evidence, and the available material does not independently verify a real-world operating identity.

Infrastructure Integrity

The domain resolves directly to two likely origin addresses on WorldStream - WorldStream B.V. in the Netherlands, AS49981; no CDN was detected. This infrastructure fact is neither an independent legitimacy indicator nor a mitigation for the external reputation findings.

Closing Assessment

Interaction should remain limited to passive viewing, with no login, credential submission, payment, domain transfer, or other sensitive action unless the blacklist findings are independently resolved and the current operator is formally established.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.
Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of kirsehirdemasaj.xyz.

- The request stayed on kirsehirdemasaj.xyz. It was not redirected to another domain. CLEAR
- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by registrar-servers.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-16. NOTED
- The earliest public archive of this site is from 2020-07-20. CLEAR
- It is hosted on WorldStream, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about kirsehirdemasaj.xyz at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
