

Is klatz.pro legit? TrustSniffer's high-trust assessment: 100/100

klatz.pro

Verdict

100

OUT OF 100

HIGH TRUST

klatz.pro appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Official-looking Russian-language brand site for Klatz dental products offering product catalogs, descriptions of product lines, contact details and company information.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Klatz.pro is an official-looking Russian-language brand website for Klatz dental-care products, presenting catalogues and descriptions for toothpaste, toothbrushes, mouthwashes, and product sets, with contact and purchasing information for retail or wholesale enquiries.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, blacklist, malicious-content, or credential-harvesting indicators. The homepage presents a coherent dental-care catalogue, including Lifestyle, Health, Brutal Only, Glamour, Baby/Kids, Zoomers, and Xtreme lines, together with toothbrushes, mouthwashes, and bundled products; this is consistent with a conventional consumer-goods brand model rather than an abuse-oriented site. The captured site contained no login form, sensitive submission form, wallet connection, or suspicious browser behaviour. The apparent legitimacy is therefore well supported at the website and technical-behaviour level, while the real-world operator remains independently unverified. Evidence:

- The homepage identifies the site as the Klatz brand site and provides structured dental-product categories and product descriptions.

- The captured page contained no login form, hidden sensitive form, password submission, wallet connection, clipboard-hijacking activity, or suspicious inline script.
- Evaluated external checks recorded zero malicious and zero suspicious detections, with partial reputation coverage.

Regulatory Verification Notes

The site presents company information and contact details appropriate to a commercial product catalogue, but the supplied page evidence does not establish the legal identity of the operator independently. No formal licence or registration number is identified in the available disclosures; for a dental-products retailer this is principally a transparency and merchant-verification point rather than evidence of a scam. The available evidence is consistent with an established, apparently legitimate consumer brand, but it does not prove the entity responsible for operating the domain or selling the products. Evidence:

- The site's contact and company-information areas provide business-related details for enquiries.
- The homepage offers a "Where to buy" pathway, indicating a retail or distribution model rather than direct financial-service activity.
- The domain was registered on 2018-09-05 and is approximately 7.96 years old; registration is through Regional Network Information Center, JSC dba RU-CENTER.
- The site's transport encryption uses a DV certificate issued by YR2, valid until 2026-09-18.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm the legal merchant identity named in the site's company information, check applicable product-safety or commercial registration requirements with the relevant registry, and review the applicable return, delivery, and payment-protection terms. Contact channels should be validated through an independent route, and any purchase should use a payment method providing established buyer protection. Evidence:

- The site includes dedicated "Contacts," company-information, and purchasing-navigation areas that can be used as the basis for independent merchant checks.
- The available evidence describes a product catalogue and enquiry-led sales process, so delivery, returns, and payment arrangements should be confirmed before a transaction.
- The domain's registration continuity and valid TLS certificate provide useful corroboration of site persistence and encrypted transport, but do not independently identify the operator.

Summary Verdict

The overall posture is **high trust and low risk**, with evidence consistent with an established, apparently legitimate website and no observed scam or impersonation contradictions. The principal residual uncertainty concerns independent confirmation of the real-world operator, not detected malicious behaviour.

Infrastructure Integrity

The site resolves directly to hosting associated with TimeWeb-AS – JSC _TIMEWEB_, RU, on AS9123 in Russia, with two likely origin addresses and no detected CDN or WAF layer. Direct hosting is a conventional configuration but provides less intermediary protection than a mainstream edge network; it is a mitigating or contextual infrastructure observation, not proof of legitimacy.

Closing Assessment

Ordinary browsing is proportionate to the assessed posture, while independent merchant-identity, return-policy, and payment-protection checks should be completed before credentials or payment details are submitted.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of klatz.pro.

- The request stayed on klatz.pro. It was not redirected to another domain. CLEAR
- Registration is published under Regional Network Information Center, JSC dba RU-CENTER. CLEAR
- DNS for this domain is served by timeweb.ru, across 4 name servers. NOTED
- The registration is paid up to 2027-09-05. NOTED
- The earliest public archive of this site is from 2019-02-08. CLEAR
- It is hosted on TimeWeb-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about klatz.pro at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
