

Is lacomer.com.mx legit? TrustSniffer's high-trust assessment: 80/100

lacomer.com.mx

Verdict

80

OUT OF 100

HIGH TRUST

lacomer.com.mx appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

La Comer ecommerce page displaying store locations, promotions (free shipping thresholds per brand/product), department highlights, contact phone/email, newsletter sign-up and standard ecommerce site footer links (privacy, returns, investor relations).

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

La Comer is an established Mexican online supermarket presenting grocery, household, pharmacy, personal-care and related retail products through store selection, promotions, delivery services, customer contact channels and newsletter functionality; its apparent business model is conventional e-commerce funded by product sales, promotions and shipping.

Scam/Impersonation Risk

No contradictions were observed. The site content is consistent with an operating supermarket: it provides store locations, product departments, delivery promotions, customer-support information and standard privacy and returns links, without phishing forms, crypto functionality, unusual investment promises or brand-impersonation indicators. External reputation checks were clean, with no malicious or suspicious findings, no confirmed blacklist result and an established global traffic footprint. Runtime testing did record external network activity and console errors, but it found no cloaking, hidden sensitive forms, password-exfiltration forms, wallet-drainer activity or clipboard hijacking; these observations do not establish an abuse pattern.

EVIDENCE

- The homepage presents “La Comer | Tienda en Línea,” store selection, product search, delivery promotions and a physical store address.
- The domain was registered 1999-10-01 and is approximately 26.88 years old.
- Web-archive records contain 456 snapshots spanning 2001-10-03 to 2026-07-14, with 26 years tracked.
- Evaluated reputation checks returned 0 malicious detections, 0 suspicious detections and no confirmed blacklist result for the site.

Regulatory Verification Notes

The available pages present ordinary retail disclosures, including privacy, returns and investor-relations links, together with customer contact and store-location information. No financial or other licensing claim or license number is presented; for a supermarket e-commerce model, that is a transparency and verification point rather than evidence of a scam. The real-world operator identity is not independently verified, so the apparent legitimacy of the site should not be treated as conclusive proof of the legal entity behind it. Domain registration is through Tucows.com Co., while the transport and hosting signals are consistent with a technically established service.

EVIDENCE

- The site's footer exposes privacy, returns and investor-relations sections.
- Domain registration is recorded through Tucows.com Co.
- Hosted on AS13335 (Cloudflare, Inc., US).
- TLS certificate issued by WE1 (DV), valid to 2026-10-16.

What to Verify Next

Before credential or payment interactions, an independent check should confirm that the merchant identity, store network and published contact channels correspond to the intended La Comer business. The applicable return and refund terms should be reviewed, and payment methods should provide ordinary transaction dispute or payment-protection mechanisms. Any licensing question should be assessed against the requirements applicable to Mexican retail and payment processing rather than against financial-services standards.

EVIDENCE

- The homepage provides a store locator with numerous named locations and a physical address for La Comer Coyoacán.
- The site includes customer contact information, newsletter functionality and standard returns and privacy links.
- The site behavior exposed one newsletter/store-locator form and no sensitive login form.

Summary Verdict

Available evidence supports a **high-trust, low-risk posture** consistent with an established, apparently legitimate website. The conclusion is supported by long-running domain and archival continuity, clean external reputation, coherent retail content and sound transport infrastructure, while independent operator identity verification remains incomplete.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic served through Cloudflare edge addresses rather than a directly exposed origin. This reduces direct origin exposure and is a mitigating security control, but it is not, by itself, proof of business legitimacy.

Closing Assessment

Ordinary browsing and retail use are proportionate to the observed posture, with independent merchant-identity, return-policy and payment-protection checks completed before credentials or payment details are submitted.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status

UNVERIFIED

Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lacomer.com.mx.

- The request stayed on lacomer.com.mx. It was not redirected to another domain. CLEAR
- Registration is published under Tucows.com Co.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-09-30. NOTED
- The earliest public archive of this site is from 2001-10-03. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lacomer.com.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
