Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Lambeth Council's website is an official-looking local-government public-service portal presenting council services, tax, housing, parking, social care, licensing, community information, news, civic engagement, and access to "myLambeth" accounts. Its apparent purpose is to provide statutory information, support, and transactional services for the Lambeth community.

Scam/Impersonation Risk

No contradictions were observed. The homepage consistently identifies the service as Lambeth Council, uses the government-oriented `gov.uk` namespace, and presents a coherent public-service structure without phishing indicators, deceptive financial offers, brand impersonation, or suspicious interaction mechanisms.

- The homepage title and navigation identify "Welcome to Lambeth | Lambeth Council" and provide council-service categories.
- The homepage contains no sensitive form, hidden form, external password submission, wallet connection, or suspicious script behavior.
- The domain was registered on 1996-08-01 and is approximately 30.02 years old.

Regulatory Verification Notes

The site presents a public-sector council identity rather than a commercial financial or brokerage service. Its content covers council tax, benefits, licensing, housing, planning, and civic services; no separate commercial license claim is evidenced. External reputation checks found no malicious or suspicious detections, and no broker-reputation match was identified. The government namespace and convergent site content support the stated institutional purpose.

- Hosted on AS16509, identified as AMAZON-02 – Amazon.com, Inc., US.
- The TLS certificate uses DV validation, is issued by Amazon RSA 2048 M01, and is valid through 2027-03-11.
- The domain appears within the global top-million traffic footprint.

What to Verify Next

For council payments, benefits, or account actions, normal use of the site's native service navigation and login facilities is appropriate. Where a transaction involves a separate contractor, payment recipient, or regulated service, the relevant organisation and authority should be confirmed through an independently sourced official channel.

- The homepage provides direct service pathways for Council Tax, housing, parking, benefits, licensing, and "myLambeth" login.

- The site's behavioral testing completed two successful runs with no wallet-drainer, clipboard-hijacking, cloaking, or hidden-form indicators.
- The homepage identifies Lambeth Council as a government/public-service site and contains privacy and cookie-management information.

Summary Verdict

The website presents as a legitimate, established, and trustworthy local-government service. Its identity, public-service purpose, technical operation, clean reputation, and consistent page behavior converge without contradictory risk signals. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is hosted on Amazon infrastructure and uses a currently valid Amazon-issued DV TLS certificate. These are supportive protective signals for transport security and operational stability, although infrastructure alone does not establish institutional legitimacy.

Closing Assessment

Standard browsing, login, and council-service interactions may proceed normally, with ordinary care applied to any separate payment or third-party transaction.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lambeth.gov.uk.

- The request stayed on lambeth.gov.uk. It was not redirected to another domain. CLEAR
- Registration is published under No registrar listed. This domain is directly registered with Nominet.. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lambeth.gov.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
