- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Lampost.co is an Indonesian regional journalism and information portal focused on Lampung, presenting news, opinion, multimedia, weather, e-paper access, and related commercial content to serve a local readership through advertising, subscriptions, sponsored microsites, and commerce placements.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, or malicious reputation findings were observed. The homepage presents substantial regional editorial content rather than deceptive financial services, and observed page behavior showed no hidden forms, wallet activity, credential-harvesting form, or suspicious scripts. The site's public contact presentation is consistent with an operating publication.

- The homepage identifies the publication as "Lampost – Jendela Informasi Lampung" and displays current Lampung news across government, law, business, technology, education, entertainment, sports, and weather.
- Homepage behavior recorded zero wallet-connect runs, zero wallet-drainer runs, zero hidden forms, and zero suspicious inline scripts.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

Lampost.co presents as a media business rather than a regulated financial service. Its stated model includes advertising, e-paper or subscription access, sponsored microsites, and affiliate or commerce placements. No license or registration number is claimed in the supplied site evidence; this is a limited disclosure point for commercial or contractual review, not an identity contradiction. The domain has a long operating history, recognized registration, sustained archival continuity, and a clean external reputation.

- Registered on 2012-09-21 and approximately 13.87 years old; registrar: PDR Ltd. d/b/a PublicDomainRegistry.com.
- The archive contains 5,000 snapshots spanning 2013–2024, covering 12 tracked years.
- Hosted on AS47583 (AS-HOSTINGER – Hostinger International Limited, CY).
- TLS certificate issued by YE2, domain-validated, valid to 2026-09-09.

What to Verify Next

For any advertising, sponsorship, subscription, or other commercial engagement, confirm the contracting entity and applicable payment terms through the publication’s independently established contact channels, and confirm any required media or commercial registrations with the relevant Indonesian authority.

- The site provides publicly listed editorial contact information and media-policy material.
- The homepage exposes e-paper, subscription, sponsored-microsite, advertising, and commerce-related pathways for review before commitment.
- Social presence is linked through Instagram, Facebook, X, TikTok, and YouTube.

Summary Verdict

Lampost.co presents a legitimate, established, and trustworthy website with a low-risk news-portal profile. The convergence of sustained editorial activity, consistent historical presence, clean reputation results, and normal observed behavior supports appropriate standard interaction, including account login and ordinary account actions.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed Cloudflare edge service at 185.158.133.1 and potential origin candidates behind the protective layer. This reduces direct exposure of the serving environment and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

Closing Assessment

Normal browsing, login, subscription, and standard site use are appropriate; higher-value commercial commitments should follow the routine entity and payment-term checks described above.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lampost.co.

- The request stayed on lampost.co. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED

- The registration is paid up to 2026-09-20. NOTED
- The earliest public archive of this site is from 2013-03-02. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lampost.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
