

Is lanches2000.com.br legit? TrustSniffer's high-trust assessment: 100/100

lanches2000.com.br

Verdict

100

OUT OF 100

HIGH TRUST

lanches2000.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Website for Lanches 2000, a sandwich shop in Arapiraca-AL founded in 1996. Shows menu, hours, address, and encourages ordering via WhatsApp; contact phone provided. No forms asking for credentials or payments on-site.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the online presence of Lanches 2000, a local sandwich shop in Arapiraca, Alagoas, Brazil, presenting hamburgers, hot dogs, combos, beverages, opening hours, location details, and ordering through WhatsApp for pickup or delivery.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent local-business model rather than an investment, credential-collection, or high-pressure payment scheme: it displays food items and prices, identifies a physical location, promotes ordering through WhatsApp, and contains no login, password, wallet, or sensitive-payment forms. The business name, location, stated operation since 1996, menu content, and linked social and mapping services are mutually consistent. Available reputation checks identified no malicious, phishing, or blacklist indications, although the operator’s real-world identity remains likely rather than independently verified.

EVIDENCE

- The homepage identifies Lanches 2000 as a sandwich shop in Arapiraca-AL and presents hamburgers, hot dogs, combos, drinks, hours, and ordering instructions.
- The homepage behavior showed no login form, hidden form, password submission, wallet connection, clipboard manipulation, or suspicious script activity.
- The domain was registered on 2020-06-24 and is approximately 6.16 years old.
- Archive intelligence records continuity from 2024-03-27 through 2025-12-28, with 2 years tracked.

Regulatory Verification Notes

The website's content is consistent with a local food-service business and does not make a regulated-finance or other specialist licensing claim. It does not display a formal licensing or corporate-registration number, so regulatory disclosure is limited and should be treated as a transparency item rather than evidence of deception. A registration record names Daniel de Oliveira, but that record does not independently establish that the named individual operates the business. No matching broker-reputation record was identified, and the available external reputation signals were clean.

EVIDENCE

- The homepage describes prepared-food sales and delivery services rather than a financial or investment offering.
- The site displays a physical location, operating hours, and contact route on its location and ordering content.
- The registration record lists Daniel de Oliveira as the registrant.
- The site is hosted on AS47583, AS-HOSTINGER, Hostinger International Limited, CY.
- Its TLS certificate is issued by YE2, uses Domain Validation (DV), and is valid through 2026-10-13.

What to Verify Next

Before a credential or payment interaction, an independent party should confirm that the listed business name, address, telephone contact, and WhatsApp ordering channel correspond to the same merchant through an offline or independently sourced channel. For any advance payment, the applicable delivery, cancellation, refund, and payment-protection terms should be confirmed before funds are transferred; where local food-service licensing is relevant, the business's status should be checked with the appropriate local authority.

EVIDENCE

- The homepage provides identifiable merchant details suitable for independent cross-checking.
- The site's ordering model directs transactions through an external messaging channel rather than an on-site sensitive-data form.

Summary Verdict

Available evidence supports a **high-trust, low-risk posture** that is consistent with an established, apparently legitimate local business. The website's purpose and operating model are clear, with no observed indicators of scam activity, phishing, or brand impersonation; however, the operator identity is not independently verified.

Infrastructure Integrity

The site resolves to one likely origin address hosted by Hostinger International Limited in Lithuania, with no CDN detected in the observed configuration. This provides a conventional hosting baseline and does not itself establish legitimacy, but the technical service was stable and the valid TLS deployment supports ordinary transport security.

Closing Assessment

Ordinary browsing and standard ordering may proceed with proportionate care, subject to independent merchant-identity, transaction-policy, and payment-protection checks before credentials or payment details are submitted.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lanches2000.com.br.

- The request stayed on lanches2000.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns.br, across 2 name servers. NOTED
- The registration is paid up to 2027-06-24. NOTED
- The earliest public archive of this site is from 2024-03-27. CLEAR
- It is hosted on AS-HOSTINGER, from a server in LT. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lanches2000.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
