

Is landsendhotel.co.uk safe? TrustSniffer's moderate-trust assessment: 65/100

landsendhotel.co.uk

Verdict

65

OUT OF 100

MODERATE TRUST

landsendhotel.co.uk is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Safe for Read-Only

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Official-looking hotel website for The Land's End Hotel offering booking search, accommodation descriptions, contact email and phone, dining and event information, and cookie/consent management.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What landsendhotel.co.uk served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Safe for Read-Only.
- Public web-archive history exists since 2002.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The Land's End Hotel website is a hospitality and booking site presenting accommodation reservations, hotel information, and related visitor services for prospective guests.

Scam/Impersonation Risk

No contradictions, phishing indicators, or brand-impersonation signals were observed. The homepage presents a conventional hospitality model covering hotel stays, Penwith Studios, Saddle & Stable rooms, food and drink, weddings, events, and special offers; this is commercially coherent and contains no inherently deceptive financial or investment mechanics. The site provides contact and booking functionality without a login form, hidden sensitive forms, wallet-connect activity, or suspicious external form destinations. Available external checks also recorded no malicious or suspicious detections, although coverage was partial.

EVIDENCE

- The homepage is identified as “The Land’s End Hotel” and presents accommodation, dining, wedding, event, and booking content.
- The homepage contains one booking-search form and a contact-email link; no sensitive form or login form was detected.
- Runtime testing recorded zero wallet-connect runs, zero wallet-sensitive runs, zero wallet-drainer runs, zero clipboard-write events, and no cloaking classification.
- Available external checks recorded zero malicious detections, zero suspicious detections, and no confirmed threat-list hit.

Regulatory Verification Notes

The website appears to operate as a conventional hotel and hospitality business rather than a regulated financial service. The supplied site content does not present a license claim or license number; this is a transparency point for independent confirmation, not evidence of a scam. The on-site presentation is professional and operationally coherent, but the real-world operator has not been independently connected to the website with sufficient confidence. A limited page-authority signal provides only modest corroboration and should not be treated as a regulatory or legal determination.

EVIDENCE

- The homepage identifies the business as The Land’s End Hotel and includes booking, accommodation, dining, events, and contact information.
- The site is hosted on AS20860, IOMART-AS - IOMART CLOUD SERVICES LIMITED, GB.
- The site uses a DV TLS certificate issued by YR1, valid to 2026-10-07T16:05:44+00:00.
- The available page-authority assessment is recorded in the low band.

What to Verify Next

Before a substantial booking payment or disclosure of sensitive account information, independently confirm the hotel’s operating entity, its current contact channels, and the applicable hospitality or business registration details through authoritative records or an offline contact route. Payment should be made through a method offering clear transaction protection, and booking terms, cancellation conditions, and refund arrangements should be checked before commitment.

EVIDENCE

- Independent identity verification is recorded as unverified.
- The site’s transport encryption is domain-validated rather than organization-validated.
- The homepage provides a booking-search function but does not require a login or sensitive form submission.

Summary Verdict

The website has a **moderate-trust posture** and is consistent with an apparently legitimate hotel booking operation. No active scam, phishing, impersonation, or other contradictory signal was observed, but the

available evidence does not independently prove the real-world operator identity.

Infrastructure Integrity

The site resolves directly to a single likely origin address hosted by IOMART Cloud Services Limited in Great Britain, with no detected CDN or WAF edge layer. This provides less protective separation between the website and its hosting environment, but the infrastructure pattern is not itself evidence of malicious activity.

Closing Assessment

Normal browsing and routine booking research are proportionate, while independent identity, payment-protection, and booking-term checks should precede high-value or sensitive transactions.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of landsendhotel.co.uk.

- The request stayed on landsendhotel.co.uk. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2002-07-19. CLEAR
- It is hosted on IOMART-AS, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about landsendhotel.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
