Full analysis

Overview

A French-language entrepreneurship information portal, the website provides practical guides and current editorial content on forming, acquiring, structuring, taxing, and managing businesses in France, supported commercially through referrals to business-formation and accounting services.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or deceptive financial solicitation were observed. The site's long operating history, continuous editorial presence, clean external reputation, and absence of sensitive or concealed forms provide convergent evidence that it is an established publication rather than an imitation or credential-harvesting operation.

- The domain record shows registration in 2010 and an age of approximately 16.08 years: registered 5 July 2010, with expiry on 5 July 2027.
- The historical record contains 486 archive snapshots spanning 17 tracked years, from 17 October 2010 to 26 May 2026, with no suspicious repurposing or semantic drift identified.
- The homepage presented substantial entrepreneurship-focused editorial content and contained no login form, sensitive form, hidden form, cloaking, or brand-impersonation indicator.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing finding, no abuse reports, and an established top-one-million traffic position at rank 317,789.

Regulatory Verification Notes

The analyzed content operates as business education and news, referring visitors to LegalPlace for company-formation and accounting support rather than soliciting investments or taking custody of funds. No regulatory licence is claimed in the supplied material, and the on-page disclosure position is unclear; this is a limited verification note rather than evidence of misconduct, particularly because the observed publishing model does not itself establish a requirement for financial-services authorization. No adverse broker-market reputation match was identified.

- The homepage describes access to several thousand files and guides concerning company creation, acquisition, and management, including French legal structures, taxation, accounting, SASU, and EURL matters.
- The homepage promotes LegalPlace tools, training, pathways, and services as an accompaniment to company formation.

- The hosting infrastructure is served from AS16276 (OVH SAS, France), and the domain is registered through OVH.
- The site's transport encryption uses a DV TLS certificate issued by YE2, valid until 29 August 2026.

What to Verify Next

For decisions that depend on legal accuracy, the relevant guidance should be checked against the applicable French public registry, tax authority, or a qualified professional because editorial material is not a substitute for case-specific advice. Before purchasing a referred service, the contracting entity, scope, fees, cancellation terms, and data-handling terms should be reviewed on the destination service's own documentation. Official contact channels may also be independently confirmed when initiating a consequential engagement.

- The homepage covers matters with legal and tax consequences, including incorporation, commercial registration, entity selection, taxation, and accounting.
- The observed business model combines free editorial publishing with commercial referrals, making the destination provider's contractual terms the controlling evidence for any purchased service.

Summary Verdict

The website is legitimate, established, and trustworthy. Its durable provenance, coherent editorial identity, clean reputation, and benign observed behavior converge on a high-confidence assessment with no contradictory risk signals.

Infrastructure Integrity

The site uses trusted CDN/WAF protection on OVH infrastructure in France. Both observed addresses were edge endpoints, while the origin was shielded; this reduces direct infrastructure exposure but is treated as a security mitigation rather than independent proof of legitimacy.

Closing Assessment

Normal interaction, including account login and standard use where offered, is appropriate; consequential legal or commercial decisions should follow ordinary professional and contractual due diligence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lecoindesentrepreneurs.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
