- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2006.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Lemasdelacigale.com is an editorial travel and outdoor-lifestyle website presenting camping guides, destination articles, tourism news, cruise and accommodation information, travel advice, equipment recommendations, vacation deals, and a newsletter. Its apparent business model is free-to-access content supported by advertising, referral or affiliate conversions, and newsletter engagement rather than direct financial services or high-risk transactions.

Scam/Impersonation Risk

No contradictions were observed across the supplied evidence: there is no detected phishing, impersonation, blacklist, malicious behavior, credential-harvesting form, payment solicitation, wallet connection, or suspicious external submission activity. The homepage presents a coherent travel-editorial identity under “Le Mas de la Cigale,” with themed content covering camping, tourism, voyages, rentals, cruises, and vacation planning. The site’s contact and newsletter functionality is limited to non-sensitive forms, which is consistent with the stated publishing model. Overall, the available signals support an apparently legitimate, low-risk content website, although they do not independently prove the real-world operator’s identity.

EVIDENCE

- The homepage identifies the site as a camping, travel, and vacation-deal guide and provides editorial categories rather than financial or account-based services.
- Behavioral testing recorded 2 successful runs, 0 external XHR requests, 0 non-whitelisted external posts, 0 hidden forms, 0 password-external forms, 0 wallet-connect runs, and 0 clipboard-write detections.
- External screening recorded `gsb\_malicious: false`, `external\_blacklist: false`, `abuseipdb\_whitelisted: true`, and `abuseipdb\_reports: 0`.
- Domain registration evidence records creation on 2024-11-05T19:04:45Z, approximately 1.79 years of registration age; historical records show 106 archive snapshots spanning 2006–2026 across 21 tracked years.

Regulatory Verification Notes

The website appears to operate as an editorial travel publication, not as a bank, broker, payment provider, or other regulated financial service. The supplied pages do not establish an independently verified corporate operator or regulatory authorization, and the on-page disclosure state is unclear; this is a transparency and identity-verification matter rather than evidence of fraud. The absence of a matched broker-reputation record is a limited contextual signal and should not be treated as a legal or licensing determination. The site's advertising, affiliate, and newsletter model also means that any commercial referral should be assessed separately from the trust posture of the publishing website itself.

EVIDENCE

- The homepage contains one newsletter/contact form and no login form or sensitive payment form.
- The site presents a content/blog business model with free articles, travel advice, destination guides, and promotional vacation content.
- The domain registrar is NETIM; the recorded ownership contact is "REDACTED FOR PRIVACY."
- Hosting telemetry records AS13335, CLOUDFLARENET – Cloudflare, Inc., US; the site's TLS certificate is issued by WE1 using DV validation and is valid to 2026-10-21T14:45:12+00:00.

What to Verify Next

Before any credential or payment interaction connected with a referral, reservation, or third-party offer, independently confirm the merchant's legal identity, cancellation and return terms, and available payment protections. Confirm that any commercial partner or booking destination is reached through the expected official channel and that the offer details remain consistent after leaving the editorial site. For recurring newsletter or contact engagement, confirm the site's official contact channels through an independent source.

EVIDENCE

- The homepage’s stated purpose is editorial travel guidance and vacation promotion rather than direct transaction processing.
- The available forms are classified as `newsletter\_subscription` and `contact\_form`, with no sensitive form detected.
- The commercial model is assessed as advertising, travel/product referrals, and newsletter monetization.
- The site has no supplied licensing claim, license authority, or license number requiring confirmation for its stated editorial function.

Summary Verdict

The overall posture is **high trust and low risk**, with evidence consistent with an established, apparently legitimate travel-content website and no observed scam or impersonation contradiction. The principal limitation is that the real-world operator identity is not independently verified, so the trust conclusion should not be interpreted as proof of ownership or corporate identity.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN/WAF infrastructure, and all observed addresses were Cloudflare edge addresses rather than an identified origin server. This provides a meaningful exposure-mitigation layer, but infrastructure protection is supportive rather than conclusive evidence of legitimacy.

Closing Assessment

Normal browsing and editorial use are proportionate to the observed posture; any associated reservation, purchase, or credential submission should follow ordinary independent checks of the relevant merchant and payment protections.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lemasdelacigale.com.

- The request stayed on lemasdelacigale.com. It was not redirected to another domain. [CLEAR](#)

- Registration is published under NETIM. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-05. NOTED
- The earliest public archive of this site is from 2006-07-10. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lemasdelacigale.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
