- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Melbourne-based local marketing service offering letterbox distribution of flyers, leaflets, brochures, pamphlets, catalogues, and newspapers, with GPS-tracked delivery, targeting options, printing and design add-ons, and quote-based engagement for businesses seeking local campaign reach.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent local-service model rather than a financial, crypto, or credential-harvesting operation: it offers paid distribution campaigns, describes residential and business targeting, and promotes “GPS-verified” delivery and reporting. The site contains no login form, wallet connection, hidden form, phishing indicator, or detected brand-impersonation pattern. Its claims about reach, accountability, and delivery performance should be treated as commercial representations requiring normal service validation, but they do not independently indicate impersonation or fraud.

EVIDENCE

- The homepage describes flyer, leaflet, brochure, pamphlet, catalogue, newspaper, printing, design, and GPS-tracked delivery services for Melbourne.
- The homepage provides a quote-request form with selectable print sizes, target markets, and printing or design requirements.
- Historical records show a domain age of 9.54 years, with 12 archive snapshots spanning 2017–2023.
- External screening recorded no blacklist, phishing, malicious, or suspicious finding, and no abuse reports for the hosting address.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate local service website, but the real-world operator identity is not independently verified. Registration records associate the domain with Australian Sales & Marketing Group Pty Ltd through Web Address Registration Pty Ltd; this is an administrative registration signal, not proof that the named entity operates the website. The reviewed service content does not state a regulatory licence or registration number. For this type of commercial distribution service, that omission is a transparency and verification matter rather than evidence of a scam. A third-party broker dataset returned no match.

EVIDENCE

- Domain registration records list Web Address Registration Pty Ltd as registrar and Australian Sales & Marketing Group Pty Ltd as registrant.
- The site is served from AS20473, AS-VULTR – The Constant Company, LLC, US.
- The site uses a valid DV TLS certificate issued by YR1, valid to 2026-11-17T18:46:50+00:00.
- The homepage identifies the business as “Letterbox Distribution Melbourne” and provides a Melbourne-focused service description, but no licence or registration number is stated in the reviewed content.

What to Verify Next

Before payment or submission of business-sensitive information, independently confirm the operating entity through the applicable Australian business registry and confirm that the quoted service terms, campaign coverage, delivery reporting, cancellation provisions, and payment protections are documented. Contact details should also be confirmed through an independent route before entering into a material engagement.

EVIDENCE

- The homepage offers a free-quote workflow rather than an account-login or credential-submission process.
- The quote form contains selection fields and was identified as having no sensitive form fields or untrusted submission destination.
- The site presents a commercial service model based on campaign quotations and service delivery rather than regulated financial activity.

Summary Verdict

The overall posture is high trust and low risk, with the available evidence strongly consistent with an established, apparently legitimate website. The principal residual uncertainty concerns independent attribution of the website to a real-world operator, not an observed scam, phishing, or impersonation contradiction.

Infrastructure Integrity

The domain resolves to a single likely origin address, with no CDN or WAF detected and no edge-IP layer identified. This represents a conventional direct-hosting arrangement with fewer intermediary protection layers, but the infrastructure evidence does not indicate malicious behavior.

Closing Assessment

Normal browsing and quote-based engagement are proportionate, while ordinary independent checks of the merchant identity, service terms, and payment protections should be completed before credentials or payment details are provided.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of letterboxdistributionmelbourne.com.au.

- The request stayed on letterboxdistributionmelbourne.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Web Address Registration Pty Ltd. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The earliest public archive of this site is from 2017-02-04. CLEAR
- It is hosted on AS-VULTR, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about letterboxdistributionmelbourne.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
