

Is leyuansu.com legit? TrustSniffer's high-trust assessment: 78/100

leyuansu.com

Verdict

leyuansu.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not ScamLow Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 70%.

What this site appears to be

Official corporate site for Happy Elements (乐元素) describing its games (Anipop), company mission, offices, news, recruitment, and CSR activities. No forms requesting credentials or payments are present in the captured content.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This is the corporate website of Happy Elements (乐元素), a mobile and online games company presenting its Anipop game, company mission, Beijing and Shanghai offices, news, recruitment opportunities, social-responsibility activities, and related entertainment business including licensing, live shows, music, animation, and merchandise.

Scam/Impersonation Risk

No contradictions were observed: the captured corporate content showed no phishing indicators, impersonation signals, malicious detections, credential requests, payment forms, wallet-connect activity, or suspicious behavioral activity. The site's presentation is consistent with a corporate games business, while the real-world operator identity remains independently unverified; accordingly, the legitimacy assessment is evidence-consistent rather than proof of identity.

EVIDENCE

- The homepage and corporate content describe Happy Elements, Anipop, company activities, offices, recruitment, news, and corporate social responsibility, with no forms requesting credentials or payments.
- Registered in 2010 (approximately 15.91 years old), according to the domain's registration record.
- The domain has 60 archive snapshots spanning 2011–2026, covering 16 tracked years, with no suspicious repurposing or semantic drift identified.

Regulatory Verification Notes

The About and company-overview content presents Happy Elements as an established entertainment business founded in 2009, with stated operations in mobile and online games and associated intellectual-property activities. No licensing or registration number was identified in the captured corporate content; for this business model, that is a disclosure and verification matter rather than evidence of a scam. Available external reputation checks were clean, and the site uses a recognised registrar and valid transport encryption, supporting an apparently legitimate corporate presence without independently proving the operator's legal identity.

EVIDENCE

- The domain is registered through Alibaba Cloud Computing (Beijing) Co., Ltd., with a recorded creation date of 2010-09-15 and expiration date of 2032-09-15.
- Served from AS45090, operated by TENCENT-NET-AP — Shenzhen Tencent Computer Systems Company Limited, CN.
- The site's TLS certificate is issued by Starfield Secure Certificate Authority - G2, uses DV validation, and is valid to 2026-09-07.

What to Verify Next

Before any credential or payment interaction, independently confirm the legal entity behind Happy Elements and the stated office presence through authoritative corporate or commercial records. Review the applicable purchase, refund, privacy, and consumer-protection terms, and confirm that any transaction is processed through a payment method offering appropriate dispute and recovery protections. Official contact channels should also be cross-checked through an independent route rather than relying solely on details presented on the site.

EVIDENCE

- The site provides dedicated About Us, Our Office, recruitment, and news sections that can be cross-referenced during entity verification.
- The captured content presents a corporate information and recruitment model rather than a direct credential or payment-collection workflow.

Summary Verdict

The available evidence supports a high-trust, low-risk posture for an apparently established corporate website. No scam, phishing, impersonation, or other contradictory signal was observed, although the evidence does not independently verify the real-world operator identity.

Infrastructure Integrity

The website is protected by CDN/WAF infrastructure, with the observed edge address associated with AS45090 and no origin candidate identified in the analysis. This reduces direct exposure of the origin environment and is a mitigating infrastructure characteristic, but it is not by itself proof of legitimacy.

Closing Assessment

Ordinary browsing is proportionate to the assessed posture; credential or payment actions should follow independent merchant-identity, policy, and payment-protection checks.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status

UNVERIFIED

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of leyuansu.com.

- The request stayed on leyuansu.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Alibaba Cloud Computing (Beijing) Co., Ltd.. [CLEAR](#)
- DNS for this domain is served by alidns.com, across 4 name servers. [NOTED](#)
- The registration is paid up to 2032-09-15. [CLEAR](#)
- The earliest public archive of this site is from 2011-02-02. [CLEAR](#)
- It is hosted on TENCENT-NET-AP, from a server in CN. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about leyuansu.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
